**WATER FAMINE IS UNCHECKED**  
Newark, N. J. Shortage Grows More Serious  
New York Lightery Carry Supplies for Drinking  
Situation in Bay State Towns Also Becomes Critical

**Parsons Says:**  
"Hit the Line Hard!"

This exhortation is being made to men, women and children by educators, preachers, editors, sales managers, business directors and other leaders in all walks of life. It is all right and a fine thing—in fact, THE thing to do—to tell a man to "hit the line hard." But just remember, there are many, altogether too many, who do not have this HITTING POWER. Parsons' adjustments give "HITTING POWER."

**2,500,000 Men**  
in the first draft were disqualified for active military service because of physical defects which rendered them unable to "hit the line hard." Being unfit for military service, they were therefore unfit to render FULL service in ANY capacity. They were unable to get FULL returns from life in any position.

**Parsons' Chiropactic**  
adjustments correct slight displacements in the backbone. The vital force to every organ is transmitted by way of the spinal nerves, through the openings between the bones (see cut below.) There is practically no other way that the pressure can occur sufficiently to reduce your "hitting power."

**Parsons**  
studies the BACKBONE, makes his analysis of the BACKBONE and gently adjusts the BACKBONE. It is his business to keep your spinal bones in alignment. This will do more to raise your hitting power to its full limit than ANYTHING ELSE you can do.

**See Parsons Now**  
then "hit the line hard," no matter where or what it is. Hit it hard and fast and YOU ARE SURE TO WIN.

MAE PARSONS, D.C., Ph.D.

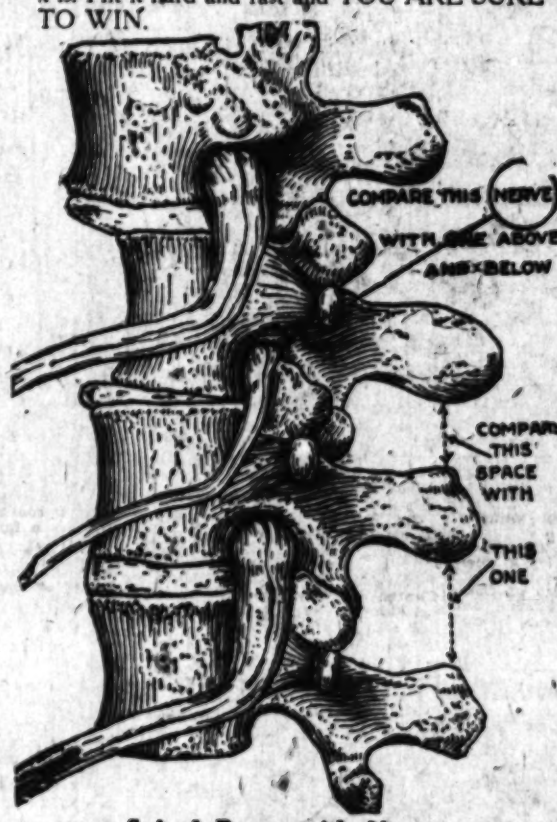

G. E. PARSONS, D.C., Ph.D.

**Why Chiropactic?**  
Because it is conceded to be the most effective health system known today.  
Because over fifty Insurance Companies are now approving it. (List on file in this office.)  
Because John D. Rockefeller, Prince of Spain, Billy Sunday, Charles M. Schwab, Clara Barton, Bessie Love, John Philip Sousa, twenty-six States and 163,761 majority of California voters have gone on record for it.  
Because Parsons himself regained his health through it years ago, after exhausting the resources of the other health systems.  
Because Health Talks now running in the various magazines indicate its unusual scope and superiority.

**Why Parsons?**  
Because of personal service. Because he is both reliable and responsible. Because of his gentle scientific adjustment and reasonable rates. Because he provides individual rest rooms with locks (extreme privacy). Because he is permanently established and connected in Los Angeles—plus nine years of very successful practice. Because he believes in and maintains high professional standards—standards even higher than those required by the new California Chiropactic Law and the National Board of Chiropactic Examiners. Because he endeavors to provide the maximum in location, service, courtesy, comfort, and results, that you might receive the most in health for the least trouble and expense.

**Important**  
Parsons makes sure of correct spinal analyses, by Spino-graphing (Chiropactic X-Ray) all cases before adjusting them.

**Your Opportunity!**  
Present this page announcement, with your case history, to our office secretary, and we will give you a consultation, without charge.

Spinal Bones with Nerves

Showing how displaced spinal bones cause pressure on nerves and thereby prevent nerve force from passing to your organs from the brain. Interference with life currents will have effect in some part of your body. It is important, therefore, that displaced joints be gently adjusted. Parsons specializes in this work.

**NEW BIG PACKAGE 111 Cigarettes 24 for 15**

**Four and Fore!**

**STEIN-BLOCH STYLE ENDURES**

We refer to a STEIN-BLOCH four-piece, double duty sports suit, consisting of coat, waistcoat, knicker and trousers. You'll find such a suit is of surprising service to you as it is equally appropriate for business or for sports. The coat is specially constructed to allow free arm play and shoulder sway. In the new fabrics for Fall.

**The "Parsons" Spine Index of Health**

1. Headaches, Dizziness, Eye Troubles, Loss of Memory, Speech or Appetite.	11. Nervousness, Catarrh, Neuritis, Hay Fever, Sleeplessness, Epilepsy.
2. Bronchitis, Writer's Cramp, Wry Neck, Pains or Numbness in Hands, Arms or Shoulders.	12. Heart Troubles, Pleurisy, Difficult Breathing, Asthma, Disincline, After-effects of the "Flu."
3. Liver Troubles, Sick Headaches, Fevers, Vomiting, Grippe, Jaundice, Heartburn, Paralysis.	13. Stomach and Throat Troubles—various forms, Gout, Rheumatism, Tonsillitis, "Weak" Back.
4. Anemia, Loss of Weight or Appetite, Intestinal Disorders, Back and Side Aches, Diabetes.	14. Rheumatism, Bells, Eczema, Abscesses, Dropsy, Eruptions, Kidney Trouble.
5. Appendicitis, Constipation, Rectal, Bladder Troubles, Frequent Urination, Hemorrhoids.	15. Scurvy, Diarrhoea, Peritonitis, Pain, Swelling or Numbness of Thighs, Legs or Feet.

**See Your Own Spine**  
and know positively which of your spinal bones are out of place. It's the displaced vertebrae pinching your nerves which cause you to feel badly. A Chiropactic X-Ray picture gives YOU the proof, and enables PARSONS to know JUST HOW MUCH your backbone needs adjusting.

**Results**  
At the right is a photograph (Chiropactic X-Ray) of the spine of a patient who was paralyzed. After a series of Chiropactic adjustments, the patient returned to work well and strong. YOU ALSO MAY BE WELL!

**Parsons' Policy**  
Parsons' Policy is that of ABSOLUTE FAIRNESS. He refuses ALL cases not strictly Chiropactic cases, and sincerely strives to EXCEL in constructive work. By following this policy he has been successful in over 95 PER CENT of cases handled.

## JAIL ATTACK TO BE GIVEN AIRING

### Investigation of Beatings of Police Promised

### Officer-Victims Lay Cases Before Authorities

### Long Beach Chief and City Manager Ask Action

By a "Times" Staff Correspondent

By a "Times" Staff Correspondent  
LONG BEACH, Oct. 21.—That no stone will be left unturned to bring about a thorough investigation of conditions in the County Jail where two members of the Long Beach police department, incarcerated in connection with charges of contributing to the delinquency of girls, were badly beaten by other prisoners, was emphasized today by County officials.

The victims of the beating, Frank G. Henderson and O. Faulkner, after being released on bail, were taken to the County Jail by manager Windham and Chief of Police Yancy yesterday and affidavits covering their treatment at the jail were filed today. The prisoners were made Faulkner, whose face and body bear plainly the marks of a severe beating was

Members of the crime commission met at noon Monday to go to the scene of the murder yesterday to interview the two suspended police officers and a thorough investigation of the matter will be made through the District Attorney's office and the Sheriff. It was promised.

It is the contention of the police officers that they were transferred from a tank on an upper floor to the lower floor at the rear of the building. The latter, and that as soon as the killer had put them in the second tank, more than forty prisoners came to the gunroom, picked up their rifles and shot and killed the two policemen and jumped on the two policemen and

beat them into insensibility. Both were treated at the jail hospital. Two prisoners whom Henderson had been instrumental in sending to jail were said to be responsible

for the troubles.

# TO TIGHTEN UP LAW ON CRIMINALS

*Attorney-General's Office  
Recommended to Step Up  
Loopholes Now Existing*

(BY A. F. MOUNT WIER)

WASHINGTON, Oct. 21.—Legislation to tighten the government's hand against criminals, closing up disputed points of law, was recommended by Asst. Atty. Gen. Crim. in charge of the Department of Justice's criminal division in a re-

Although the law punishes anyone who assaults a Federal officer while serving process, Mr. Crim pointed out that the Federal statutes provide no punishment if the officer is murdered under such circumstances. This situation, he

Sending of threatening letters through the mail, unless it is in a fraud scheme or for extortion, is another act, Mr. Cirm said, for which the Federal Government is responsible.

The Assistant Attorney General's report also showed that convictions under the Mann "White Slave" law during the last year increased 32 per cent over 1927. There also was an increase of 14 per cent in convictions under the motor vehicle theft law while convictions under the Federal Kidnapping Act increased 19 per cent over 1932 and 161 per cent over 1921.

## Is Cause of Family Hitch

**INCLINING HEAVENLY**  
SQUONK CITY, Nev., Oct. 31.—For months Fred Newman shared his home and bed, also occupied by his wife, Clara, and their boarder, George Dickleek and there was no hitch in the peaceful relations in the household. Newman testified in the court late Saturday.

Recently, however, Mrs. Newman refused to share her bed in time for him to go to work, though he managed to get breakfast for Dickleek and the went to work later. When he protested, Dickleek beat him up. Dickleek and Mrs. Newman thought the matter "funny" until Clara told of the beating but it was different when their bonds were placed at \$1000 in default which they are held to.

County Jail.

**SEES TWENTY-NINE  
MILLION FOR GOTHAM**

(EXCLUSIVE DISPATCH)

NEW YORK, Oct. 21.—The prediction that New York City will harbor a population of 25,000,000 in the year 2080 is made by Prof. Raymond Pearl and Prof. Lowell J. Reed of the School of Hygiene and Public Health of Johns Hopkins University in a survey for the committee on the Plan of New York City and its environs. The analysis by the university professors covered a metropolitan district of 3,500 square miles, embracing New York, New Jersey and Connecticut, and now having a population of 9,000,000.

**POISON-LIQUOR VICTIM  
WILL BE BURIED TODAY**

(BY A. F. MOORE WIRE)

PORTERVILLE, Oct. 21.—Funeral services will be conducted here tomorrow for William Melvin Smith, 22 years of age, who died as a result of drinking poison, according to physicians here, according to physicians here.

A large, stylized black musical bass clef (F-clef) is centered on a white background. The clef is rendered in a bold, slightly irregular font, with a thick black line forming the main body and a smaller, curved line for the 'hook' at the bottom. The background is white with some faint, scattered black specks, giving it a slightly textured or aged appearance.

**DRIVE LAUNCHED TO GET GEM TAX**

Internal Revenue Agents Assigned to Task

Careful Check of Stores Handling Jewelry

Pawn Brokers, Druggists and Others Watched

(EXCLUSIVE DISPATCH)

WASHINGTON, Oct. 21.—To compel prompt filing of returns, with the purpose of imposing penalties wherever disregarded or evasion of the law is disclosed, the Bureau of Internal Revenue has begun a nation-wide drive for the collection of delinquent taxes on the sale of jewelry.

Field agents in each of the internal revenue collection districts throughout the United States have been assigned to the work. Careful check is being made not only of sales of jewelry but by persons and firms engaged in businesses in which the sale of jewelry is only a part. Such list includes hardware stores, antique shops, bric-a-brac stores, millinery shops, cigar stores, druggists, department stores, pawn brokers, mail order houses, stationers etc. Investigation in a few widely scattered cities shows that a large percentage of such persons and firms have failed to make return and pay the tax.

**MONTHLY RETURN REQUIRED**

The jewelry tax (on real or imitation) is 1 per cent of the sales price, monthly return and payment of which are required of the dealer. Practically all goods carried by regular jewelers are subject to the tax. This is also true of a large proportion of goods sold by pawn brokers.

All articles "made of or imitated, mounted or fitted with precious metals or imitations thereof" are taxable as jewelry. Such goods often carried by dealers other than regular jewelers, are: Safety razors, cigar and cigarette holders and cases, umbrellas, cases, powder boxes, purses and handbags, card cases, etc. A fountain pen equipped with a gold point, is taxable. Watches and clocks, regardless of the material of which made are taxable, also portable binoculars, opera glasses, lorgnettes, field glasses and marine glasses.

**IVORY GOODS TAXABLE**

All articles made of, or fitted with or encased with genuine ivory are subject to the tax.

Federal officers have been instructed to check carefully all such sales. Upon report of the investigations action will be taken by the bureau. Failure to make return and pay the tax within the time required by law subjects the delinquent to a penalty of not more than \$1000. "Willful refusal" to make return and pay the tax or "willful attempt" in any manner to evade the tax subjects the offender to a penalty of not more than \$10,000 or one year imprisonment or both. For failure to make return within the time prescribed the revenue law prescribes also an additional assessment of 25 per cent of the amount due and for evasion an additional tax of 50 per cent.

**CHICAGOANS USE HOMES AS SALOONS**

Bootleggers Open Up in Private Houses After Old Places Are Closed

(EXCLUSIVE DISPATCH)

CHICAGO, Oct. 21.—Chicago has 5000 new saloons, police captains reported today to Chief Collins. That many liquor-selling places have been established in private homes since Mayor Dever and the chief started their campaign to stop the sale of liquor was the claim of the officers.

When informed that liquor was being sold in 5000 Chicago homes, Chief Collins ordered his men to go after the sellers. Eleven homes in the Marquette district were raided at once. The police used search warrants in their raids on dwellings, but announced that hereafter, where they deemed by expedient, they would be guided by a recent ruling of Corporation Counsel Burch holding they had the right to enter and search any premises when "sight or smell" convinced them the liquor law was being violated.

Most of the complaints against "home saloons" come, the officers said, from those whose husbands are being supplied.

Most of the liquor is of the vilest kind, it is said, home brew, fig wine and crude moonshine.

Of the 5000 soft-drink parlors that were operating at the start of the campaign, only 1500 are still in business, Chief Collins stated. If these are not put out of business before the first of the year they must cease to function then, it was understood as a result of the plan of police to recommend the granting of no licenses.

**PARIS HATS COST SMALL MINT TO BUY**

Bonnets Desirable Because They Are Expensive and Vice Versa

(EXCLUSIVE DISPATCH)

PARIS, Oct. 21.—Hats have reached peak prices in Paris for this winter. One simple bonnet covered with sables will cost \$175. Three thousand francs to the Parisienne (\$175) means the ultimate in extravagance and the sables hat has never been so popular and probably never will again.

Milliners admit that sables hats certainly will be cheaper next year than this, but with the present demand, which is created largely by price, the price must go high and higher, at least for one season. The same applies to bird of paradise hats which are desirable because they are expensive and expensive because they are desirable.

Researches today showed that three sorts of hat trimmings make the deepest hole in the Parisienne's or the American's purse: Gold cloth, which brings a hat from \$75 to \$100; paradise-feathered hats costing from \$150 to \$175; and sables-covered hats from \$175 to \$217.

But the women are falling for them with a thud.

**Negro Named in Stokes Charges Wants Damages**

(EXCLUSIVE DISPATCH)

CHICAGO, Oct. 21.—Daniel Jackson, a negro clothier, has brought suit for \$50,000 damages against W. E. D. Stokes, New York multimillionaire hotel man, charging Stokes with ruining his reputation and breaking up his home.

Jackson accuses Stokes of charging in public print and in court, that he misconducted himself with Mrs. Helen Elwood Stokes, whom Stokes is trying to divorce. She has replied with counter suits charging Stokes and his attorney with conspiracy to blacken her character. Jackson figured in the Chicago end of the unsavory mess.

According to charges made by Stokes, Mrs. Stokes supplied Jackson with a number of costly silk shirts and showed her affection for him in other ways.

**MADE SCHOOL TRUSTEE**

Richard S. Jensen Appointed to Sierra Madre Board

By a "Times" Staff Correspondent

SERRA MADRE, Oct. 21.—Richard S. Jensen, well-known resident of this city has been appointed trustee of the Sierra Madre school district to fill the vacancy caused by the resignation several months ago of Dean William Carson Shaw.

Upon recommendation of the other two members of the board, George S. Anderson and Mrs. I. N. Hawke, Mark Keppel, county superintendent of schools, made the appointment.

**FIRE DESTROYS DAIRY**

(EXCLUSIVE DISPATCH)

INDIANAPOLIS, Oct. 21.—Fire of unknown origin destroyed dairy barns of O. O. McCallister, east of Frankfort, causing a loss of \$100,000 partially covered by insurance. More than 200 cows were stampeded, but all escaped. Farmers today aided McCallister in milking his herd, which previously had been done by machinery. He had the third largest dairy in the United States.

**WAGON KILLS SON**

(EXCLUSIVE DISPATCH)

DENVER, Oct. 21.—Elmer Henry Martin, 3-year-old son of Mr. and Mrs. H. G. Martin, who live seven miles northeast of Greeley, was instantly killed when a heavy wagon, driven by the boy's mother, ran over him. A rear wheel of the vehicle passed over the boy's neck. There are no other children in the family.

**BAND AGAINST THIEVES**

(EXCLUSIVE DISPATCH)

DES MOINES, Oct. 21.—Farmers in the vicinity of Le Mars and Remsen have taken steps to form a protective league against cattle and hog thieves who are very active. Thirty-five hogs were stolen last night from the farm of Peter Gengler near Le Mars.

**AMERICA MAY HAVE ENVOY AT EUROPE PARLEY**

(EXCLUSIVE DISPATCH)

PARIS, Oct. 21.—It is learned from reliable sources here that President Coolidge has virtually assured the British that he will send an observer to any conference held concerning reparations on a plenary basis that the question of American debts is introduced.

But participation by an observer hinges on an official invitation to the United States to take part.

It is reported that the British have obtained the support of the Belgians and Italians for inviting the United States.

**CYRUS GROWERS TO MEET**

WOODLAKE, Oct. 21.—Citrus growers from the farm centers of Orange Cove, East Orest and Woodlake will hold a field day Tuesday, at which time visits will be made from grove to grove on the east side, with talks on various pertinent problems by well-known authorities. The day's program is scheduled to open at the Sheridan Ranch, two miles west of Orange Cove, where the growers will assemble.

**INTERVENTION IN RUHR ASKED**

German Cabinet Addresses Appeal to Allies

Position of French is Held to be Untenable

Destruction of Country is Predicted in Note

BY JOHN CLAYTON

(BY CABLE-EXCLUSIVE DISPATCH)

BERLIN, Oct. 21.—Attempts to reach an understanding with France that would permit work in the Ruhr to go on and bring some settlement of the reparations problem having failed, the German Cabinet decided yesterday afternoon to send a circular note to all the Allied powers demanding intervention in the Ruhr. The note calls the attention of the Allied powers to the efforts of Germany to find a solution of the problem; to the fact that the passive resistance was given up in the hope that France would consent to negotiate; to the demands of France for virtual control of all of Germany's railway outlets abroad through direction by the French railway regime of the Weese-Emscher and Frankfurt-Basle line, and to the refusal to permit German civil officials to return to the occupied area.

The note declares that France has taken an untenable position, which is greatly increasing the common interests of the Allies and is leading to the utter destruction of Germany. The note calls for Allied intervention in the name of humanity for the salvation of Germany and Central Europe.

Meanwhile, the Cabinet will send a memorandum to the Reparations Commission detailing Germany's position in the reparations question and will call upon Sir John Bradbury to use his friendly offices to bring about negotiations.

**Gonzalez Roa Is Believed Slated for Ambassador**

(BY A. WORTH WEBB)

NOGALIES (ARIZ.), Oct. 21.—Ignacio Bonillas former Mexican ambassador to the United States under the Carranza regime stated here yesterday that he predicted the appointment of Fernando Gonzalez Roa to be the Mexican ambassador to the United States. Senor Gonzalez Roa has long been identified with the Mexican diplomatic corps and was senior commissioner of the Mexican commission which met with the American commission resulting in recognition of the southern republic by the United States.

Advice from Mexico City received here Friday night said that a Senor Roa probably would receive the appointment, but due to an error in transmission the name was erroneously received as Rojo.

**DEVER FIRM IN DRY LAW ENFORCING**

Chicago Mayor Will Keep Up Liquor Fight in Face of Any Wet Vote

(EXCLUSIVE DISPATCH)

CHICAGO, Oct. 21.—Residents of Chicago, who are divided on the matter of enforcing prohibition laws in this city, may be given an opportunity to express their wishes in concrete form at the forthcoming judicial election. Mayor Dever has announced that he is not a prohibitionist, but the law here and he intends to enforce it to the limit.

Liquor interests now are moving rapidly to get the question before the voters in the judicial election next month. They believe that if a large majority of the voters express disapproval of the Mayor's war on liquor, he may be influenced to let up in his vigorous campaign.

To this the Mayor replied: "The question of whether the laws shall be enforced is not debatable. Neither the Mayor nor any other public official can do anything except enforce the laws. Regardless of this proposed vote on the matter of enforcement, I shall respect my oath of office and continue to wipe out the saloons. If the vote be 100 to 1 in favor of enforcement, I shall enforce the law."

**TO A CERTAIN MAN OF 40.**

YOU are doing everything in your power to protect the interests of your family—except that you have not made your Will or named a competent Trustee to carry on for you.

You can bequeath money and property, but you cannot pass on to others the wisdom and experience to manage it properly. It is both unwise and unfair to your loved ones to leave the management of your estate solely in inexperienced hands. That which you have so carefully built up can be so easily lost.

By naming this bank as your Executor and Trustee you gain the assurance that your wishes will be faithfully carried out by an organization of trained and competent men. You owe your family and yourself this protection.

becomes an ardent devotee of the KNABE, using this instrument exclusively in her concert performances, and in her studio for imparting to her pupils the highest ideals of musicianship.

Mrs. Clark Writes as Follows of her enthusiasm for her chosen instrument:

"The Knabe which I recently purchased is an ideal instrument for my concert work. I find from past experience with all of the best known makes of pianos that the Knabe is the peer of them all. It is a great inspiration to me and my students, who revel in the magnificent possibilities of its tonal varieties and limitless depth of tone."

## STATE TO HELP IN COYOTE WAR

Tulare County Supervisors  
Adopt New Method

Prize Holsteins Entered in  
Show at Oakland

Picking of Olives Begins in  
Lindsay District

**EXCLUSIVE DISPATCH**  
VISALIA, Oct. 21.—Ordinance No. 134, repealing the \$2 bounty on coyotes was adopted by Tulare County Supervisors, in session here. At the same time the board accepted the contract with the State for State and Federal coyote extermination work here, half of the expense being met by the county and the other half by the State and Federal governments. Men will be placed in the field at once by the State.

Cattlemen and poultry raisers have complained of great depredations in their herds and flocks by the marauding beasts, which have ventured quite low into the foothills this season.

**HOLSTEINS ENTERED**  
TULARE, Oct. 21.—Four of the pure-bred Holsteins of this district have been chosen by the Tulare Holstein-Friesian Association for exhibition in the Pacific Slope Dairy Show to be conducted in Oakland from the 28th inst. to November 3, according to word received here. Two bulls and two cows, including the Korndyke Pontiac 30th, present title-holder of the world among his kind, will be sent to the Oakland Auditorium for display.

King Korndyke Pontiac 30th is owned by Sargent Brothers, 814 Agate Ave. Mand. 3-year-old bull owned jointly by W. J. Hixson, P. M. Longan and Horner and sons of this district, is the other representative sire. Korndyke Cream Cup, with a record of 37,734 pounds of milk, and 199 pounds of butter in one year, is chosen as leading cow of this region. She is owned by W. J. Hixson. Her companion will be Anthonia Pontiac 30th, with a record of 37,999 pounds of milk and 1143 pounds of butter during one year under test. She is owned jointly by W. J. Hixson and Sargent Brothers of Tulare.

**EAGLES INTRIGUE CLAIMS**  
PORTERVILLE, Oct. 21.—Several State officers, including State President Clyde Williams and State Senator Ernest B. Owen, in addition to a large delegation of Eagles from Fresno, Bakersfield, Hanford, Tulare and Hanford, were present for initiation of twenty-five novitiates into members of the Porterville Eagles. The ceremony was followed by a feast of roast and an "Eagle feed." The local drive for membership in the Porterville Eagles, which is under direction of Deputy State Organizer Stanley, Alvin C. Smith is the local secretary.

**OLIVE PICKING UNDER WAY**  
LINDSEY, Oct. 21.—Picking of olives is well under way in the Lindsay district. The Lindsay Olive Company plant has been receiving fruit for about two weeks and two cars of green olives have just been shipped over to the Southern Pacific line. The leading platform for this railroad is being raised to complete. It will be used for handling the green olives to be shipped to other points for packing. Shipments from this district this year are estimated at 340 carloads. The scale of prices for the olive picking has been set by local growers at 15¢ to 18¢ for one picking on Manzanillo and from 22¢ to 25¢ for one picking on Mission and 25¢ per ton for each additional picking.

**LATE FIRE IN BRUSH**  
CALIFORNIA HOT SPRINGS, Oct. 21.—Shortly after the forest guards broke up their vigil in the hills and left summer quarters here for winter quarters in Porterville, a fire broke out in the Porterville Meadows country beyond here, burning over 150 acres. This section was mostly brush and low in fuel. The fire came after considerable rain and snow had fallen in the mountains, with which the fire season usually ends. Sequoia Forest thus far has suffered no serious fire this season.

**RED CROSS CHAPTER REPORTS ACTIVITIES**

HANFORD, Oct. 21.—With annual reports showing a year of substantial achievement and looking to increased service in the year to come, Kings county Red Cross chapter has elected new officers for the ensuing term as follows: Nathan Weisbaum, president; Mrs. H. R. Cousins, vice-president; Mrs. J. J. Knight, secretary and Mrs. Fay Horton, treasurer. The chapter has spent \$1160 a year in its work, much of it in local relief and charity, for many years. It collected recently \$1100 for Japanese relief.

**CAPTAIN'S ESTATE DIVIDED**

DENVER, Oct. 21.—County Judge George Loring yesterday admitted to probate the will of John F. Campion, Jr., Denver capitalist and sportsman, who was killed in an automobile accident near Snowden Lake, Colo., October 4. The major part of his estate, the value of which is not estimated, Helen Campion left to his sisters, Helen Margaret Campion and Mary Phyllis Campion, both of 350 Logan street. Through minor bequests he disposed of \$31,000.

## Out Goes Neuritis

When Tymsol Goes In

If you suffer from neuritis pain you can obtain relief without the use of narcotics, poisons or other dangerous drugs. Just apply Tymsol over the affected area, and in a very few minutes your pain and aches should cease.

Tymsol is a pleasant, harmless preparation that is taken up by the pores of the skin. It is wonderfully soothing and healing to the diseased nerve, gradually helping to drive inflammation, which is responsible for all the trouble.

Don't endure another day of misery. Get a supply of Tymsol at once and put on and to your neuritis. Price \$1 at all leading druggists.

Tymsol Company, Mfg. Chemists, 499 South St. San Francisco—Advertisement.

## AND NOW HE DRIVES TAXI

Scion of Wealthy New York Family is Chauffeur for Hire to Pay for Room and Food

**EXCLUSIVE DISPATCH**  
NEW YORK, Oct. 21.—Francis Ormond French, eldest son of Amos Tuck French of Tuxedo Park, N. Y., and cousin of William H. Vanderbilt, sat on the cold boarding-house steps at 13 West Seventy-second street, where he has taken a furnished "fourth floor back," and explained why he has become a taxi driver. His father and step-mother, the sister of Livingston Bockman, former Governor of Rhode Island, are on their New Hampshire estate. His mother, Mrs. Le Roy French, still is at her Newport villa, where he has just been visiting her.

His brother, Styvess French, lives at the Knickerbocker Club, from which together with the Tuxedo Club, Francis French has resigned. His youngest brother, Amos T. Jr., is a Princeton undergraduate. But Francis French himself, a Harvard graduate of 1912, and formerly a well-to-do broker with offices at 36 Exchange place, now drives a taxi so that he may pay his food and rent.

"Any woman in New York will be pleased to ride in a cab with you at the wheel," they told me at the chauffeur school when I entered September 25," he laughed. "But, seriously, it's just a case of being flat and turning to the thing that I could get. It isn't funny at all. I've got to earn my food and board, and this is all I've been able to get. I went where I had an actual value.

"One point I am going to correct: I don't think I am lost in Wall street—that's silly. I went broke in that terrible bull market that began April, 1921. It was then that I moved up to One Hundred and Eighth street for a year. I was down, I couldn't get back. I kept my desk space in the street until I got clear of debt. Then I tried to find something. I have run the gamut of jobs: banks, newspapers, the hotel business, department stores. I couldn't make any money.

"Then I got this idea that has seemed so strange to people. Why? I'm just going to be one of the 13,000 cab-drivers in the city that's all. And I will have an honest living without turning to my family.

"I went through the school in a week. I've already got my operator's license—324,687. I've been looking over the Capt. French of the investigation squad at the traffic district office and passed. And now, finally, I'm at the wheel. I don't feel a bit heroic or romantic.

"I've kept my Harvard Club membership because it's the most reasonable. And I'm going to make the ends meet without becoming a bootlegger or heading the meter. I'll get my own cab soon and perhaps I'll be able to set up my own business in time."

Mr. French spoke of his first job when he worked as a laborer in a clay field for a brick company, of his two years in the Navy, of enemies he had made in Tulare during an election campaign, of his various business enterprises, his Wall street career, his penniless situation. He spoke without seeming regret, simply and with enthusiasm. His marriage to the daughter of Edward Livingston Burrill, the former Miss Eleanor L. Burrill, in August, 1921, and their former home in the apartment at 311 Park avenue, and the divorce, which she obtained last July, were touched upon.

"Taxi drivers get 35 per cent of their meter recordings. The meter, which I am going to drive for allows half over \$60 a week for day men, and half over \$90 a week for night men. I expect to get about \$45 a week at the start, if I am lucky."

**WIDE OPEN GAS Jet Points to Suicide Pact**  
CHICAGO, Oct. 21.—Clashed in each other's arms, 27-year-old Vernon, 17 years of age, and Arthur Thorn, 22 years of age, were found dead this morning in the home of two of the girl's aunts at 38 South Loomis street.

A wide open gas tank told the story of the tragedy. Police searched for a note to reveal why the young couple had ended their lives, but none was found. They reported to Lieut. Lynch that they were convinced the pair had entered into a death pact.

Thorn and Miss Halverson were to have been married next Thursday.

**UNLOADED GUN KILLS WORKER AT EL CENTRO**  
**EXCLUSIVE DISPATCH**  
EL CENTRO, Oct. 21.—Lennie Miller, 27 years of age, a ranch worker, was instantly killed near here, another victim of an unloaded gun. Miller was preparing to move his furniture from the place where he had been working and attempted to shove a small caliber rifle into place on the truck. He seized the gun by the barrel and a cartridge in the chamber exploded, shooting him through the heart. Coroner Lemons announced an inquest for next Monday. Miller's wife was the only witness to the accident.

**FAIRBANKS, JR., PLANS "REAL LIFE" PICTURE**

**EXCLUSIVE DISPATCH**  
NEW YORK, Oct. 21.—Douglas Fairbanks, Jr., fresh from Hollywood, arrived on the Twentieth Century Limited yesterday. "The name of my first picture is 'Stepping Out,'" he explained, "and now that it is finished I am in New York to stage a real life 'Stepping Out'."

**SCREW IN LUNG KILLS**  
**EXCLUSIVE DISPATCH**  
DES MOINES, Oct. 21.—A small screw that had lain in one of his lungs for more than forty years caused the death of William E. Rourke, 49 years of age, Norway (Iowa) blacksmith. The screw brought about a hemorrhage.

**One Way Out**  
A gentleman who considered wearing gowns unsuitable for street use, was having a tilt with a designer.

"Gowns," growled he, "are now touching the sidewalk. I suppose you have reached the limit and are satisfied."

"I'm not," stated the designer, "but we have never reached the limit in long gowns."

"Huh!"

"We could make the women wear stills."—[Exchange.]

## HANDCAR OF BANDIT TRIO GIVES CLEW

Detectives in Siskiyou  
Train Robbery Case Are  
Following New Lead

**EXCLUSIVE DISPATCH**  
DUCOR, Oct. 21.—Discovery late yesterday of the handcar, in which bandits who robbed the Southern Pacific station safe here on the 8th inst., and escaped to the south, and of which all trace had been lost, in bushes near Jasmine, opened other clews in which the Sheriff's office and special Southern Pacific detectives have been working all day.

A. R. Fries, brakeman on the Porterville-Fernando local freight, found the missing handcar. The robbers broke into the section tool-house here and obtained tools with which to open the safe. Entry was made the station late at night with a skeleton key. About \$70 cash was taken, but \$700 in money orders was untouched. Residents heard the departure of the handcar immediately following exit of a south-bound train. These bandits are believed to be members of a gang which have robbed other safes in the valley this fall.

**NEW YORK NOT ALL BAD**

Many Very Respectable People Live There, Ed Howe Says

How viciously New York City is abused! Yet it has accomplished many creditable things, in spite of the number of dangerous characters who have flocked in to prey on necessary and legitimate business. The lounge lizard, the flapper, the Greenwich Village idler, the gunman, the bootlegger, have done nothing except give New York a bad reputation.

The city has millions of good citizens who have not only over come the evil disposition of its bad citizens, but in addition made the place an orderly, pleasant and progressive that everyone wishes to visit it. The creators of its literary, artistic, movie, dramatic, musical, pink bohemia, have had nothing to do with creating the city's many creditable institutions.

Greenwich Village, where live so many of the city's creators of jazz, is merely a tumble down section of the real New Yorkers have moved out.

New York has many disreputable, but the best men of the country gravitate to New York as surely as do the best ball players, and manage to control it. In spite of rather more opposition from rogues than we find in the country.—[Ed Howe's Monthly.]

**WHERE THE SUGAR GOES**

Not more than half the sugar we Americans consume is used in our homes. The rest goes into manufacturing products. The estimates of the quantities used in manufacturing run this way: Our candy makers alone use more than \$6,000,000 tons, and 130,000 tons more go to sweeten up chocolates and ice cream. Every year the bakers dip into the national sugar bowl for well over 45,000 tons for bread, 55,000 tons for crackers and 30,000 tons for pies and cakes. A mere 10,000 tons goes every year into fruitings and odds and ends in the bakeries. Fourteen thousand or more soft drink makers hit the nation's sugar bin for at least 135,000 tons for their concoctions and another 100,000 tons goes into condensed milk. Twenty thousand tons of sugar is chewed up each year in gum; and less aesthetic laws worked on another 15,000 tons that goes into the nation's "candy" tobacco. This does not include about 6000 tons that goes to smoking tobacco. The country's pill and potion bill disposes of about 6000 tons of sugar each year, and the corner drugstore uses an unknown quantity in filling what the doctor ordered. Even sticky fly paper draw from the sugar supply to the tune of hundreds of tons.—[Nation's Business.]

**A WONDERFUL MACHINE**

A young engineer listened to the fog observations of a lot of old philosophers until he determined to take the wind out of their sails by some technical talk of his own; so he jumped into the conversation with the following description of a wonderful machine he had just been working on. "It means of a pedal attachment," he said, "a fulcrum lever converts a vertical reciprocating motion into a circular movement. The principal part of the machine is a huge disk that revolves in vertical plane. Power is applied to the axis of the disk, and work is done on the periphery, and the hardest steel by mere impact may be reduced to any shape." But one old pundit looked sternly at him, over his spectacles and said: "Young man, seek not to darken with folly the counsels of the wise. What you have so verbosely described would be as easily recognized if you just called it a grindstone."—[Exchange.]

**VICTOR HUGO'S CONCEPT**  
Humor and self-criticism, it has often been pointed out, go hand in hand; a sense of humor is an antidote for conceit. Victor Hugo had no sense of humor, and the conceit with which he looked back upon his career arose from a conceit that was even more colossal than his ego.

Late in life some of his friends were talking with him, and of course he was about him. "Streets ought to be named after you."

Another remarked, "Boulevards ought to be named after you."

No, indeed! France ought to change its name and the whole country be named after Victor Hugo."

The great writer then lifted his head and with Jovian dignity spoke in tones of quiet, solemn conviction: "That will come in time."—[Kansas City Star.]

## 'Heat like California Sunshine!'

HUMPHREY

# Radiantfire

~ODORLESS GAS HEATERS

## The Right Kind of Heat for Your Home

It isn't enough that your home should have plenty of heat. That it should have the RIGHT KIND of heat is equally important. There should be no odors—no unburned gases—when your heaters are in operation. The best kind of heat for your home is Radiant heat—the same kind of heat which the sun sends forth through ninety-three million miles of frigid space to cheer and warm the earth.

And radiant heat—"just like California sunshine"—is the kind you get when you use Humphrey Radiantfire Gas Heaters. It is clean, odorless, wholesome heat.

## Usefulness—Combined With Beauty

Besides serving you as a complete heating plant, the Humphrey Radiantfire is a beautiful piece of furniture. There's a Humphrey Radiantfire that will harmonize with each room in your home. Inexpensive portable models for small rooms. Exquisite period designs for fireplaces and other purposes where exceptional attractiveness is desired.

There are many gas heaters—but there's only one Radiantfire—and that's the Humphrey Radiantfire. Protect yourself against imitations by specifying "Humphrey Radiantfire" and be sure to visit an authorized Humphrey dealer.

FOR YOUR CONVENIENCE, OUR DOWNTOWN SALESROOMS WILL BE KEPT OPEN EVERY WEEK DAY FROM 8 A. M. TO 6:30 P. M.

There's but one 'RADIANTFIRE'—Humphrey builds it!

Everything Gas and Electric 710 South Hill St. Phone 873-941

## JEALOUSY BRINGS DOUBLE TRAGEDY

ENRAGED HUSBAND KILLS  
WIFE WITH BABY IN ARMS  
AND THEN KILLS SELF

**EXCLUSIVE DISPATCH**  
NEW YORK, Oct. 21.—Jealousy of his wife, fanned by constant brooding that reached the stage of mania, according to the police, drove Andrew Bogert, superintendent of an apartment house to kill his wife, Catherine, early today and then commit suicide.

Mrs. Bogert was shot down as she nursed her four-month-old son, Edward. As she fell dead, the infant fell from her arms to the floor, receiving injuries that made it necessary for it to be taken to the hospital for treatment.

## AGED MOURNER DIES ON REACHING GRAVE

**EXCLUSIVE DISPATCH**  
MILWAUKEE, Oct. 21.—Hilmar Sibilly, 18 years of age, of Algoma, Wis., died suddenly Friday morning in the cemetery at Eagle River, Mich., while visiting the grave of his mother, who was his cousin, and a boyhood friend who was buried on Thursday. Mr. Sibilly had attended the funeral and went to the cemetery for one more look at his friend's grave before he returned to Algoma. He was stricken just as he reached the grave.

## TWO-DAY CONVENTION OF GIDEONS CLOSED

By a "Times" Staff Correspondent  
LONG BEACH, Oct. 21.—The State Convention of the Gideons, the Christian Commercial Travelers' Association, came to a close here tonight with a Gideon evangelistic service. The East Side Christian Bible service at the First Place Baptist church in the morning was another feature of the two-day conference. A business session took place at the Y. M. C. A., in the afternoon, and a banquet in the evening at the Calvary Presbyterian church.

Howard Kinsey and Snodgrass Also to Perform

May Sutton Bundy Scheduled to Appear

Matches at L. A. Tennis Club to Draw Throngs

Los Angeles tennis fans will get their first look in two years at Vincent Richards, youthful tennis wonder, this afternoon at the Los Angeles Tennis Club courts at Malibu. Richards, a Spanish star, Howard Kinsey, Harvey Snodgrass and Bob Kinsey appear in exhibition matches.

Richards has been starting for so long that most folks think of him as an old man but as a matter of fact that New York youth hasn't yet had his twenty-first birthday. He captured the national doubles titles with Bill Tilden when he was only 18 years old and has been getting better ever since.

This afternoon Richards will be matched against Alonso and the contest between these two expert singles players will make it an uncomfortable for any player living and the contest ought to be a wonder.

Another singles match scheduled will present Harvey Snodgrass, our own home-product star, against Howard Kinsey, ranking player from San Francisco.

A men's doubles match between Richards and Alonso on one side of the net and the Kinsey brothers on the other is still another on the day's bill. The visiting star will be here just one day as they are en route to Mexico for the big tournament.

The Los Angeles Athletic Club eleven faced Danny Hall's L. A. Uniteds, last year's champions, in the first game of the season.

A well-placed shot by Downie, inside right, after a scrimmage in front of the goal gave the Mercuries the advantage that meant victory. Aside from Downie's goal, the eleven scored twice more.

The clubmen took the offensive at the start and several times forced a corner on the Uniteds. Johnston, goals for the Uniteds, prevented the Mercuries from scoring with several good saves.

However, just before the end of the first half Downie took the ball in a scrimmage and booted it squarely into the net for the only goal of the game.

The Uniteds pressed the Mercuries time and again in the early part of the second half, but Goellie Milford and his back ward-off all scores. In the latter part of the game the clubmen again took the offensive and only remarkable saves by Johnston prevented shots by Hrix and Downie from being goals.

The Sons of St. George outclassed the Overmars in the first game of the season. The Sons, 2-0. Parks, center forward for the Sons, scored both goals. In the first half Parks made the first goal with a great shot from scrimmage.

The second score was made in the second half. Philpott, Sons' outside right, making a beautiful shot across to center and Parks kicking the goal.

The other class "A" match resulted in a 2-0 victory for the Los Angeles Scots over the Long Beach Uniteds. The game was staged on the L. A. Uniteds' field. It was said to be the best soccer match ever played at Long Beach by several of the old-timers who witnessed the contest.

Vincent Richards Appears Here Today  
Here is shown one of the premier tennis players of all time who will appear in exhibition matches at the Los Angeles Tennis Club today. Vincent Richards, famous Spanish racketeer, will also play on the local courts.

#### TROJANS EXCEL IN PUNTING

Play Analysis Shows Huskies Outclass U. S. C. in Practically Everything but Kicking

(BY A. F. NIGHT WIRE)  
SEATTLE, Oct. 21.—An analysis of the play in yesterday's game between the University of Washington and the University of Southern California eleven, won by Washington 22 to 0, shows that the northwesterns had the better of their opponents in practically everything except punting.

Plunging through the line fifty-nine times, the Washington backs carried the ball 143 yards, an average of about two and a half yards a plunge. Southern California's attacking power was weak. The net gain from twenty-one attempts being only twenty-six yards.

#### TRIO TIES FOR HIGH HONORS IN SHOOT; REED COPS TROPHY

A truckload of trophies were awarded at the Vernon Gun Club yesterday, when the eighth annual registered trapshooters tournament drew to a close, resulting in three of our local shooting stars tying for high amateur average with a score of 574x 600.

Trophies were presented to the high gun on each 100 targets during the tournament, one trophy to a shooter only. Warren won the first with 574x100, Stauber the second with 574x100, Reed the fourth with 574x100, C. J. Hurst the fifth with 574x100, and Casselberry the sixth with 574x100.

Shooter	1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th	Total
Warren	100	100	100	100	100	100	100	100	100	100	1000
Stauber	100	100	100	100	100	100	100	100	100	100	1000
Reed	100	100	100	100	100	100	100	100	100	100	1000
Hurst	100	100	100	100	100	100	100	100	100	100	1000

#### KINSEY BEATS VIN RICHARDS

Californian Trims the New Yorker in Five Sets

Match is Most Sensational of State Tournament

Johnston and Griffin Lose Doubles Crown

(BY A. F. NIGHT WIRE)  
BERKELEY, Oct. 21.—Five California tennis titles changed hands today in the California State championship tennis tournament and one title, the men's doubles, went to Spain and New York. This was won by Manuel Alonso and Vincent Richards.

Howard O. Kinsey, Pacific Coast title-holder, won the men's singles title, defeating Richards, third ranking player in the country, in a brilliant five-set match, 5-7, 8-6, 3-1, 6-3, 7-1. There was a difference of but three games and two points between the victor and runner-up.

William M. Johnston and Clarence J. Griffin were defeated for the men's doubles honor by Alonso and Richards in five sets in which the local players, former national champions, won the first two sets. The match score was 6-3, 1-6, 6-3, 3-6, 6-3.

Helen Wills, women's national champion, annexed the State title, winning from Charlotte Hooper, 6-3, 6-1. In the match Miss Hooper made many placements on Miss Wills, but the advantage was always with the champion.

Avery Follett of San Francisco won the girls' national hard-court event, defeating the title-holder, Carolyn Swartz, 6-2, 6-4. Miss Swartz was outplayed, according to the point score.

#### TEDDY SILVA TAKES ON ART SPRINGER

Teddy Silva, popular local heavyweight, has been selected to trade blows with Art Springer in the main event at San Fernando Wednesday night.

Springer has been boxing main events at several of the near-by clubs of late with success and can always be depended upon to put up a slugging bout in every fight. In the semi-final Larry Murry, Brooklyn lightweight, will swap punches with Johnny McGraw, New Orleans.

Other bouts are: Tommy Augeria vs. Young Moray, 135 pounds; Johnny Gay vs. Billy Van, 140 pounds; Pee-Wee Jensen vs. Young Lott, 105 pounds. Johnny Schiff will referee.

#### MADGE BELLAMY IS WINNER OF WAGER

As the result of Zev beating Papyrus, Madge Bellamy, pretty Thomas H. Ince star and expert horsewoman, is to be treated to a first-class dinner at the Montecarlo Cafe. Miss Bellamy was awarded with Hunt Stromberg, who is the "Fire Patrol" that Zev would win, the Hollywood Cafe.

#### O'HEARN LOST TO FOOTBALL

(EXCLUSIVE DISPATCH)  
NEW HAVEN, Oct. 21.—Charles O'Hearn has played his last game of football. He is the greatest all-around athlete in the New Haven General Hospital with a broken leg, received in a tackle by a Bucknell end which swept him from yesterday's game in the fifth play.

Dr. Leonard Sanford, the Yale team surgeon, set the broken bone and said tonight that while it was possible O'Hearn may be able to join the hockey sextet in January and rejoin the baseball nine, of which he is captain, in the spring, he will hardly leave the hospital before the final football matches. As O'Hearn is a senior, this means his football days are over.

Had no body toward a final of hand grenades into a crockery store the destruction could not have been much worse than that which happened to the football dope Saturday.

As a result the Pacific Coast Conference is all scrambled up like a flock of restaurant eggs and nobody is exactly sure whether it is a three-cornered race or a rectangular affair.

There are some valuable lessons to be learned from what happened, but the chances are that they will remain unlearned. Chief of these is not to underestimate a football eleven which you have never seen in action, as was done in the case of Washington. Also, it would be well to remember that early season scores are not necessarily a criterion of the sort of football a big-time eleven is capable of playing.

Likewise that it is unwise to center one's attention too closely on the home team to the neglect of what others may be doing.

But the latter is a human frailty, and will be found to prevail in baseball as well as in football. Writers nearly always overrate their own hometown baseball team in the spring. That is because they see more of it, and absorb the enthusiasm of the training camp. The same holds true in football. The situation is such as to narrow one's perspective.

Outside of Seattle most of the critics were picking the University of Southern California to win by a margin anywhere from 14 to 28 points. Now they are wondering why.

As a matter of fact, few knew anything regarding the real capabilities of Washington. Conclusions were based on scores. The important fact was overlooked that the Huskies might have as much or more under cover than the Trojans.

That Washington, heaviest football eleven in the country, and having in its ranks a first-class line, was the great Everett High School team, could hardly be anybody's secret. The fact was apparent, but overlooked in the very natural enthusiasm that goes with sectional pride.

The writer early expressed

## Bears Expecting Season's Hardest Battle Against U.S.C., Says Don Nichols

GRID SCHEDULE  
TOUGH ON CALThree Hard Games Come at  
End of SeasonAggies Show Strength, Says  
Bruin CaptainBlewett's Toe Valuable to  
Andy SmithBY DON NICHOLS,  
Captain of the University of California Varsity

BERKELEY, Oct. 21.—Although there were many upsets on the various football fields throughout the country Saturday, California ran true to form when she defeated Oregon Agricultural College by a decisive 26-to-0 score. In due respect to the Aggies, the writer must say that they certainly put up a good clean battle and were probably the best team he has seen in the state since the start of the season. Saturday was one of the hottest days we have had yet, being too torrid for anything but a water carnival.

Everything taken into consideration, the Aggies displayed a powerful defense and a good kicking game but her offense was decidedly lacking. The Aggies had had their chance when, by a fumble they gave, the ball on California's 15-yard line on the second down. They had 12 yards to go and without a third down they found themselves 14 yards from the Bruin goal line. Here they tried a place kick, which missed by a good margin.

**TURNING POINT**  
In most every game there is a turning point, that is a time when one team finds it has to play a defensive game and the other side starts a continual offense which sooner or later wins, so when Oregon could not make any ground against the Bears' stonewall defense she was forced to play a defensive game and try to keep the ball out of her territory by kicking.

In the kicking game California was for the first time in four years on the short end of the punting duel. This was due largely to the fact that Jack Witter was unable to do any kicking on account of a sprained knee. He wanted to save him for future games if the Bears could possibly win without him. Blinn, who did the punting, was not consistent and appeared to be nervous because of his being in the defensive game. However, every yard he did boot the ball was kept by the Bruins as they covered the line was covering the ball.

California's offense still lacks the punch and perfect timing which it had last year but on Saturday shows a great improvement and the Bear supporters are still very hopeful. The Varsity is particularly fortunate in having a drop-kicker who is not only a good punter but also a good ball between the goal posts from almost any position inside the fifty-yard line. Bill Blewett proved his ability to the public by completing five out of the seven drop kicks which he has attempted in the last two games.

**HORROR OUT**  
Topham took "Babe" Horrell's place at center, due to "Babe's" injury in the Olympic club game and did his work well, making him as a letter man in the first conference game. This is one of the most rapid advances ever made by a California player, as Topham was playing on the "goat" team ten days ago and in three fast jumps found himself on the varsity and a letter man.

The defeat which Washington handed to U.S.C. was indeed a surprise to the Pacific Coast conference teams but judging from the material which Washington had last year and the small number of men which she lost by graduation the writer can readily see that Washington has one of the strongest and most powerful teams in the conference. U.S.C. was also handicapped by a long tiresome trip and a game on foreign grounds which is nothing more than a dirt field and if there is any place where Washington plays good football it is in their own stadium.

However, the fact that U.S.C. was beaten by Washington does not in any way lessen the expectations of Andy Smith and the California squad of one of the hardest games the Bears will ever face when they meet the U.S.C. team in the Los Angeles Coliseum on November 10. The Bruins realize that they will meet the Trojans on their own field and that U.S.C. will have the backing of her student body and will undoubtedly put up one of the greatest fights ever seen in Southern California.

Andy Smith must use the keenest judgment in playing his cards from now on if he expects to win the Pacific Coast conference, because California plays her three hardest games the very last of the conference, U.S.C., Washington and Stanford and the Bruin coach must save his men where possible and be satisfied with a win, even if by only one point.

TENNIS STARS GET  
BAGS FULL OF DUCK

Robert Kinsey, who with his brother, Howard, and numerous other tennis luminaries will perform at the Los Angeles Tennis Club today, tried his hand at duck shooting Saturday near Calexico, Old Mexico. Accompanied by R. E. Callahan, his host, Maj. Walker and Fred Doss, Kinsey shot 146 ducks in a few hours. The sportsman report ducks in swarms, doves and herds, while geese are found in large numbers.

## OHIOLES MASTERED AGAIN

BY A. F. NIGHT WIRE  
BALTIMORE (Md.) Oct. 21.—Bunching their base hits and aided by errors and bases on balls, the Kansas City American Association team had little trouble downing the Baltimore Internationals in the sixth game in the little world series here this afternoon, 12 to 1. This gives Kansas City four wins against two for Baltimore, and means that the Blues must win only one game in the remaining three to clinch the minor league title.

Kansas City, American Association, 12; 11; 2.  
Baltimore, International, 5; 10; 8.

M'GOVERN, "LITTLE GIANT,"  
LEADS GOPHER GRID HEROESRockne Has One of Nation's  
Best Grid OutfitsEckersall Impressed by Work  
of Catholic MenMichigan and Illinois Loom  
as Big Ten ChampsBY WALTER ECKERSALL  
(EXCLUSIVE DISPATCH)

CHICAGO, Oct. 21.—Although the football season is scarcely half over, strong eleven in various sections of the country are beginning to assert themselves with the intent to interest in future games will center around the possibilities of some team to defeat those which have already showed championship.

Notre Dame's decisive victory over Princeton, 26 to 0, stamps Coach Rockne's eleven not only one of the strongest in the Middle West, but in the country as well. Winning victories over the Army and Princeton in eight days is a most commendable accomplishment and a great tribute to the caliber of football as played in the Central West.

As a result of Notre Dame's achievements, interest in its future games will not center so much in its winning as to the possibilities of such eleven as Georgia Tech., Purdue, Nebraska, Butler, Carnegie Tech., and St. Louis winning from the Hoosiers. If Coach Rockne can keep his players on edge for the remaining games and have them play the brand of football which featured the Army and Princeton struggles, the team will be deserving of great credit. It is about the hardest all summer for any football team has ever undertaken to play in one season.

**IOWA OUT**  
Iowa, the 1921 Western Conference champion which tied with Michigan for Big Ten honors last year, was eliminated from further consideration as a 1923 champion possibility by losing to Illinois Saturday, 10 to 6. As the game was played, it appeared as if the Orange and Blue were content to hold their point lead until Iowa scored late in the game. Coach Bennett then unleashed an open attack which resulted in a touchdown and a victory for the Fighting Illini.

This victory points to win Illinois a strong contender for the Big Ten championship. As most of the players in the Big Ten are of conference football, the victory over Iowa will go a long way toward winning them for the later and more important clashes with Chicago, Wisconsin and Ohio State, while Northwestern and Michigan are still in the baseball park on the week-end.

Michigan defeated Ohio State, 23 to 0, in a game which stamps the Wolverines as a strong contender for the conference title. The size of the score was a big surprise to all on hand. Coach Bennett's porter and plainly shows that Yost knows something about the forward pass game.

**TOUGH GAINS**  
Chicago was forced to extend itself to win from Northwestern, 13 to 6. The Purple went down fighting, but the Maroons must show great improvement if hopes of a victory over Illinois are to be developed. The Purple's defense, however, is a credit to the forward pass game.

Chicago was forced to extend itself to win from Northwestern, 13 to 6. The Purple went down fighting, but the Maroons must show great improvement if hopes of a victory over Illinois are to be developed. The Purple's defense, however, is a credit to the forward pass game.

Michigan defeated Ohio State, 23 to 0, in a game which stamps the Wolverines as a strong contender for the conference title. The size of the score was a big surprise to all on hand. Coach Bennett's porter and plainly shows that Yost knows something about the forward pass game.

## OREGON SURPRISE OF YEAR

Webfoots and Huskies Are Real Class of Coast Conference in North

(EXCLUSIVE DISPATCH)

PORTLAND, Oct. 21.—This week-end's games indicate better than any of the previous contests that Oregon and Washington universities are the class of the northern end of the Pacific Coast conference. Idaho is a spirited contender, but through lack of weight and reserve strength have a handicap that she can hardly overcome in carrying out her severe schedule. Washington State and the Oregon Aggies are out of the race, although either may develop sufficient strength to give trouble to some of their conference rivals.

The severe beating administered to the Trojans at Seattle surprised everybody in the North. Washington's showing against Whitman was not impressive and gave no indication of the great power shown against Southern California. Bagshaw's Huskies are more confident than ever that they are going to make a good showing in the conference.

The real surprise of the season, however, is Oregon. The loss of a lot of old experienced men seems to have helped. At Eugene it has been years since the team has shown the early season pep that it has the last few weeks. The Whitman game on Friday was a revelation of Oregon's ability, the score was only three points more than Washington had scored against the Missionaries, the previous Saturday, but Oregon's demonstration was much more convincing. The Oregon backfield had whirlwind speed and the line largely made up of comparatively green men held up well.

The scoring was done mostly by the backfield, which showed driving power as may be judged from the fact that Oregon gained a total of 261 yards from scrimmage while Whitman made eighty-three. It is a vastly improved football team from the one that routed Whitman at the same stage of last season by a score of 6 to 3. At that time Whitman outplayed the Oregonians except for a few plays in which the Whitman team fully as strong Oregon showed superiority in every department.

Washington State will come to California next Saturday to meet California and the outlook is a gloomy one from the Cougar standpoint. Defeated by both Gonzaga and Idaho she can expect to do very little against the Golden Bears. There is a feeling, however, that the score will not be one-sided as might be expected. Washington State, however, had her start, is on the upgrade. Excitement has had to spend so much

DAVE SHADE MEETS  
WELLS NEXT FRIDAY

(EXCLUSIVE DISPATCH)  
NEW YORK, Oct. 21.—Pewee was a battle for Billy Wells, the English welterweight boxer, Dave Shade, the California scrapper, has consented to tackle the Englishman and they are going to put it on for fifteen rounds at Madison Square Garden Friday night. Since Billy came to America he has won all his bouts and is the student band, rooster, alumni and a veteran of one hour will be made in Santa Barbara, where a parade will be held with the band in the lead.

as Big Ten ChampsBY WALTER ECKERSALL  
(EXCLUSIVE DISPATCH)

CHICAGO, Oct. 21.—Although the football season is scarcely half over, strong eleven in various sections of the country are beginning to assert themselves with the intent to interest in future games will center around the possibilities of some team to defeat those which have already showed championship.

Notre Dame's decisive victory over Princeton, 26 to 0, stamps Coach Rockne's eleven not only one of the strongest in the Middle West, but in the country as well. Winning victories over the Army and Princeton in eight days is a most commendable accomplishment and a great tribute to the caliber of football as played in the Central West.

As a result of Notre Dame's achievements, interest in its future games will not center so much in its winning as to the possibilities of such eleven as Georgia Tech., Purdue, Nebraska, Butler, Carnegie Tech., and St. Louis winning from the Hoosiers. If Coach Rockne can keep his players on edge for the remaining games and have them play the brand of football which featured the Army and Princeton struggles, the team will be deserving of great credit. It is about the hardest all summer for any football team has ever undertaken to play in one season.

**IOWA OUT**  
Iowa, the 1921 Western Conference champion which tied with Michigan for Big Ten honors last year, was eliminated from further consideration as a 1923 champion possibility by losing to Illinois Saturday, 10 to 6. As the game was played, it appeared as if the Orange and Blue were content to hold their point lead until Iowa scored late in the game. Coach Bennett then unleashed an open attack which resulted in a touchdown and a victory for the Fighting Illini.

This victory points to win Illinois a strong contender for the Big Ten championship. As most of the players in the Big Ten are of conference football, the victory over Iowa will go a long way toward winning them for the later and more important clashes with Chicago, Wisconsin and Ohio State, while Northwestern and Michigan are still in the baseball park on the week-end.

Michigan defeated Ohio State, 23 to 0, in a game which stamps the Wolverines as a strong contender for the conference title. The size of the score was a big surprise to all on hand. Coach Bennett's porter and plainly shows that Yost knows something about the forward pass game.

## Sports of 1923

BY FEO MURRAY

1923 Football Captains  
Joe Bennett is the 187-pound tackle who captains this year's University of Georgia eleven. He was almost unanimously chosen on the all-southern team last year, being especially good on defensive play. Joe is one of the hardest fighting men on the squad, and as he trained all summer for this football season, should be the outstanding star of the Bulldogs.

Don Nichols of California is the captain of "Andy Smith's 1923 wonder team." He is a speedy dodging halfback who is extremely hard to tackle, and the main part of the California team's strategy is built around him. He has been one of the best backfield stars for two years and was unanimously chosen on the 1923 all-coast team.

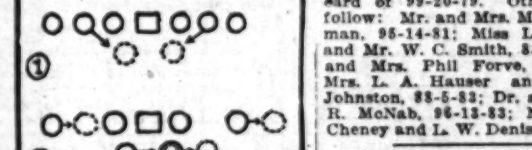

Harry Kipke of Michigan has already had the honor of being selected on Walter Camp's all-American team. He is a brainy, dashing, halfback, ranking almost in a class with Michigan's greatest star of all time, "Willie" Heston. He has wonderful speed and dodging ability, is a great punter, and drop kicker, as well as a fine passer and a dangerous interceptor of forward passes.

Charles Hubbard, of Harvard, is another one of this year's captains who was on Mr. Camp's 1922 all-American team. He plays guard, and was the star of the Harvard line last year. He always stops the play that comes toward his position and has the three necessary qualities of speed, brains and power.

LITTLE LESSONS IN  
Big Sports

## WHEN LINESMEN SHIFT

3 STEPS ENOUGH  
AND  
SPEED IS ESSENTIAL!

In plays where linemen are drawn into the backfield for a shift into an unbalanced line, what are the important considerations that insure the success of the play?

Answered by  
**GLEN "POP" WARNER**  
Football Coach, University of Pittsburgh for past eight years. Teams undefeated two of eight years. Former Athletic Director and Carlisle Indiana. Successful coach for twenty-eight years.

In such formations the linemen who are back of the line for the purpose of shifting to either side of the ball to form an unbalanced line should be in such a position that they can move forward two or three steps and a jump will bring them into their shifted positions on the line. In shift plays, quickness in shifting into position is the main factor in the success of the plays used. Therefore the players shifting should be in such a position that they can quickly jump into the different formations. The next important factor in the success of these shifts is for the ball to be put into play the instant the shift has been completed.

TWO TOURNAYS  
FOR GOLFERS

(Continued from Eleventh Page)  
Platridge, who won the Hollywood Invitational trophy last season, Scotty Armstrong of Midway, Harlow Hurley of Annandale, Everett Seaver, Fred Barber, Norman MacBeth, and numerous other celebrities. Recent alterations in the Hollywood course have made it much more of a test of golf, and scores are expected to be high.

Dr. Paul Hunter, twice State champion, and a member of the American team to compete in Great Britain three years ago, will make his first appearance on local links in competition for a long while in an exhibition foursome at Rancho next Sunday, playing with Willie Hunter in a foursome against McDonald Smith of San Francisco, a veteran of international fame, and Arthur Clarkson, recent champion of a test of golf.

Four such players are seldom as

Cyclists Off  
Next Week on  
Six-Day Grind[BY A. F. NIGHT WIRE]  
CHICAGO, Oct. 21.—Leading bicycle racers of the United States and foreign countries are entered for the six-day bike racing, beginning here next week. In addition to the six-day event, a twenty-five mile team race for amateurs and fifty-mile race for professionals is being arranged.

Francisco Verrit, Italian racer, who won the 1917 six-day race here, teamed with Ezzio McClanara, will begin training here this week. Other foreign stars due to arrive here within the next few days are Alfred Granda, Italy; Ali Nefatti, Senegal, Africa; Henry Chardon and Lucien Louet, France; Maurice De Wolfe, Belgium; Ferrario Aggero, Alex Tonnala, Maurice Brocco, Italy; Harry Stokely, England; Peter Vanacker, Holland; Fritz Bauser and Henry Teitz, Germany.

American riders entered, including Ernie Knicker, Chicago; Carl Stockholm, Chicago; Harry Kaiser, New York; Fred Spencer, Plainfield, N. J.; Willie Hanley, Kearney, N. J.; Willie Hanley, San Francisco; Eddie Madden, New York; Maurice Declerck, Chicago, and John Patrick, Newark, N. J.

Reasons for the success of the six-day race are the fact that the winners are paid \$1,340, and the fact that the winners are paid \$1,340, and the fact that the winners are paid \$1,340.

Also, the fact that the winners are paid \$1,340, and the fact that the winners are paid \$1,340, and the fact that the winners are paid \$1,340.

Also, the fact that the winners are paid \$1,340, and the fact that the winners are paid \$1,340, and the fact that the winners are paid \$1,340.

**Christmas  
Greeting  
Cards**

Order your Christmas Cards now  
and avoid all the fuss and bother of  
waiting until the "last minute." With  
less chance, too, of overlooking  
friends you wish to remember.

This is the ideal way to select your  
cards—just call 875-631. Then, in  
your own office—at your convenience,  
you may choose from the many beau-  
tiful, individual cards we have ready  
for this season; to be engraved in our  
own copperplate and steel die plant.

Phone now and make an appoint-  
ment for one of our representatives.  
Or, if you prefer, call at this address  
and select your cards. There is no  
obligation on your part either way.

**LETTERS TO THE TIMES**

Nudeness in Art  
LOS ANGELES, Oct. 13.—(To the Editor of The Times): In the defense of his nude art displays, Mr. Kanst made the statement that his pictures were not for the morally weak and inexperienced. But for those whose definition of love for pure art has lifted them above the level where sensual temptations rule in triumph at

Now according to the latest war census over 50 per cent of the adults of this nation are still in their mental and moral teens, and no more capable of discriminating between moral and immoral nudeness in art than an infant can discriminate between a gun cart-

vention one of the speakers is reported to have made the following statement: "Mr. McLaughlin urged all operators and members of the association to take all steps possible in an endeavor to eliminate what he termed a 'group of undesirable, beginning with the so-called 'practical' geologist and ending with the downright faker who professes to be a geologist and discredit to the profession.' I wish the honorable speaker had been more explicit and stated what he meant by the 'discredit' and what the earmarks are by which we can distinguish the faker from the 'practical' geologists which he mentioned."

Now my idea of a faker is any

## RARE MINERALS, METALLURGY, CHEMISTRY

You are probably interested in what is being done in the field of rare minerals, metallurgy, and chemistry. The following is a list of some of the most interesting and important work being done in these fields.

1. **Blomquist's Blomquist** (Ariz.) Oct. 1.—Question: I am sending you two specimens from an eight-foot vein in Southern Mohave county, Arizona. I am interested in that yellow mineral and always thought it was yellow ochre until I found lead in it. It occurs massive to loose-grained. The earthy variety gave 20 per cent lead and 30 per cent iron. It seems to be a carbonate, or possibly so. The lime hanging wall is stained with it for some distance and the jaspered capping shows small veins filled with that yellow mineral. The larger specimen shows the yellow mineral as it mostly occurs and the smaller shows the characteristic color. Any information in regard to this mineral will be thankfully received.

PROSPECTOR.

Answer: Some mineral that is not easy to name. It is a silicate of lead and iron, with other lead minerals such as cerussite, plumbite, cerussite, galena, altered galena and iron sulphate in greater or lesser percentages present. Zinc found, and concentrated (or precipitated) from one of the acid solutions) with microscopic work, showed limonite and hematite. It is probable that other samples from the locality might give platinum present in the concentrate from milled ore of not less than twenty pounds.

Free Gold Abound

DESERTE, Oct. 1.—Q: I am sending you in separate packages a sample of quartz I found up here with a conglomerate of footwall and a piece of hanging. Thanking you for all information on same.

A: You are probably near a ledge of the ore of zinc. Sample No. 1 is marked with a "Z" and is carbonate and silicate ore reacting for zinc, lime carbonate, and silica. "Black Jack" of mineral boys in the hills, known as zinc sulphide or blende appears under the glass. Lead traces No. 2 is calcite carrying iron and zinc carbonate and silica; zinc in low percentage. No. 3 is the "mix" of four samples; one of them is gypsum. Another specimen including the remaining three concentrates are of lime carbonate and quartzite rocks, showing iron oxides and indications of silice.

Another Blomquist Abound

YUMA (Ariz.) Oct. 3.—Q: I am sending under separate cover a sample of heavy drift rock from a small vein in the granite. It assays traces of each gold and silver. Please advise me if any mineral is present of value. I think there are indications of Blomquist. Thanking you in advance.

A: It is a mighty task to locate the few microscopic altered crystal chips from minerals of this nature. Magnesian is present in the rock and there is no reaction for Blomquist. We found traces of lead molybdate (wulfenite) in the yellowish-brown pseudomorphic pockets.

Lead Molybdate

CRESCENT (Nev.) Oct. 3.—Q: Please state whether samples are of vanadinite or wulfenite and oblige.

A: The crystals are those of wulfenite, known also as molybdate of lead.

Microscopic sulphides

GOLD HILL (Or.) Oct. 4.—Q: Under separate cover, I am sending you a bag of ore from this district for analysis. Requested analyses for gold, silver, platinum and nickel. The sample is from south drift bottom of shaft.

A: This department of the Times makes no fee charge for gold and silver. It is in fact just to give, however, that at times gold and silver native, and including the mineralogy of ore carrying gold and silver, easily detected, chloride of silver, tellurides, etc., are examples.

Your samples are of interest microscopically for the reason they carry microscopic sulphides in very low percentages; say one-fourth of 1 per cent to the ton ore, which means five pounds of concentrates to the short ton. The matrix carrying the sulphides is quartz.

Notwithstanding the fact that there are certain persons claiming new and rare minerals obtainable in high percentages from your section of Oregon, as well as California and elsewhere, when it comes to the actual showdown by chemical tests, the claims of such persons are often found to be untrue in fact. Simply the working of vain imaginations and idle dreams.

Your samples contain no tellurium. The sulphides found are those of cobalt, pyrrhotite, pyrite, chalcopirite and arsenopyrite. Nickel in low percentage. Iron, manganese and arsenite present, with traces of lead. Slight zinc reaction noted in tests. Platinum absent.

Zinc Present

KINGMAN (Ariz.) Oct. 4.—Q: Will you please tell me if there are many values in the rock I am sending you in blue box marked No. 1. Would such rock justify further development? The ledge is seventy-five feet wide and I have a ten-foot shaft on the prospect and located not far from Kingman. I think the sample is antimony of some kind.

A: The sample is base-metal with a good reaction for lead. Lead sparsely present, and from your statement it would be well to hold fast to the claim.

Chiefly Hornblende

LOS ANGELES, Oct. 4.—Question: I wish to know whether or not the sample sent me is hornblende schist or hornblende gneiss. It is a fine-grained rock showing traces of the silicates of iron and calcium. No. 3 appears to be an altered rhyolite rock mixed with hornblende. No. 4 is in part like No. 3, otherwise hornblende gran-

## WEEKLY STOCK RANGE

The Public Service Department of the Merchants' National Bank of Los Angeles issues the following table of the range of prices on the New York Stock Exchange for the week ending October 20, together with the net changes as compared with the close of the preceding week. (+ Gain, - Loss)

## Last Minute News From Petroleum Fields and Marts of Trade

## MARKET FUTURE VERY CONFUSING

Stock Exchange Loses Its Power as Prophet

Revival, However, Looked for in the East

Business May Take Cautious Move, is Other View

(EXCLUSIVE DISPATCH)  
NEW YORK, Oct. 21.—Last week it became too plain to be disputed that the stock market was no longer to be depended on for intelligible signals, as to the future course of trade and industry or of what we call "prosperity." The irritation over this attitude of the market, displayed even by business men who never speculate in Wall street, illustrates how greatly the stock exchange is depended on as a prophet of the economic future.

People of this type recall that the "trade boom" of late 1919 and early 1920 was foreboded by the excited rise of stocks early in 1919; that the "deflation" of 1921 was predicted by the falling stock market in the autumn of 1920; that the "boom" of 1922 was foreboded by the rising autumn markets of 1921 and the huge trade expansion of late spring and winter of 1922; that the "deflation" of 1923 was foreboded by the falling autumn markets of 1922 and the present shrinkage in forward orders and volume of production was heralded by stock markets gradual but sustained in the latter spring months, at a moment when the actual trade was continuing. Now, however, when the financial and business community is particularly anxious for a hint as to what will be the next chapter in trade, the stock market prefigures nothing, and at intervals one week, evidently the work of professional speculators, is exactly counterbalanced by a decline the next week. Sometimes the alternation occurs in successive days.

**LOSS OF POWER**  
For all practical purposes of prophecy the stock exchange might as well be closed. There have been various explanations for this loss of prophetic power. One is that the outlook is so confusing, with so many of the familiar financial and weather signs pointing in opposite directions, that the financial community is either unable to make up its mind as to what to expect, or is equally divided between hopeful and pessimistic judgments. Another is that the "city" is stationary stock market prefigures a very stationary condition of trade—neither better nor worse, as a matter of fact, than what is in progress. Whichever theory is correct the business world has been feeling that it has lost its prophet.

Lacking the knowledge derived from an emphatic movement of the stock exchange, a good many people are asking what are the alternative possibilities of the financial and industrial future. It would be safe to say that at present two results are deemed as probable by men who follow the market—either a renewal of the trade boom of late spring, and early summer, or a further decline in the market, and a consequent depression. The attitude of the producer and consumer is against the first, the stability of the commercial market and the steady demand for immediate goods is against the second.

**STOCK NOT DEPLETED**  
It is recognized, however, that continued fuel consumption in markets admitted to be overstocked, with goods might lead in the course of a few months to another trade revival based on suddenly increased orders for future delivery. But that revival would hardly match the "boom" which began last winter, because merchants' stocks are in no such depleted conditions as they were then, and because even the ultimate consumer has this year been buying freely as against his hand-to-mouth policy in 1922 and 1921.

But it is also recognized that trade may continue on a sound but cautious basis, taking such goods as can evidently be passed at once to the consumer but avoiding orders for delivery at a time for which the probable situation cannot clearly be foreseen. The course of the foreign markets would have something to do with determining ideas on that future situation.

## Verde Central Starts Uprise as Experiment

(EXCLUSIVE DISPATCH)

JEROME (Ark.), Oct. 21.—Verde Central has started an uprising from its main 1000-level drift to the 800, to determine the continuity and claim of the chert. The Verde Central has been called the quartz ledge, paralleling the main contact workings at 300 feet distance, now also in solid ore, the quartz having disappeared, and there is speculation concerning possibility that the two drifts are in the same ore body. In both, the copper value is around 10 or 12 per cent.

The company's small inclined shaft is inadequate for the work now being done and a meeting of directors will be held soon to determine the site of the permanent working shaft, which probably will be at least 1000 feet distant from the present shaft opening. There has also been speculation reaching the ore eventually by means of a long tunnel, mainly through United Verde ground.

## REDMEN OF TULARE VALLEY IN POW-WOW

(EXCLUSIVE DISPATCH)

TULARE, Oct. 21.—Local chiefs of the Kaweah Tribe of Redmen blazed the way yesterday to Ward Park for fifteen tribes who gathered there last night for a grand powwow of the valley warriors. Kaweah tribe will initiate a class of forty palatine. Other tribes were well represented at the powwow. Real Indians from Le More will participate in the celebration. Kaweah drill team will confer one of the three degrees to be given.

## NAVAJO OIL LEASES SOLD

Nine Bidders Acquire Thirteen Tracts in Reservation at Moderate Figure; Early Development Ordered

(EXCLUSIVE DISPATCH)

SANTA FE (N. M.), Oct. 21.—Thirteen tracts aggregating 21,520 acres of the Navajo Indian reservation were bid for a total of \$187,600 by nine bidders at the first auction of Navajo reservation oil and gas leases conducted in Santa Fe on the 19th inst., by Herbert J. Hagerman, United States Commissioner of the Navajos. While the prices were not high, old oil operators say they are as good as those offered at the first auction of Ome Indian oil leases in Oklahoma.

Nine of the leases, all on small tracts, found no bidders. They will be put up again at a later date. The total acreage offered was 25,000. Group One of the leases are all exploratory, on the Tropic, Rattlesnake, and Beautiful mountains and Table Mesa structures; Group Two, none to exceed 640 acres, is composed of tracts on the Hogback structure, where the Midwest Refining Company, which got into the field of oil in the Navajo reservation, has worked out its leasing plan with the Navajos, has two producing wells.

**OIL MEN SKEPTICAL**  
Oil men in general do not regard the Hogback as a fully proven territory. They say the Midwest wells are not as good as those in the Tropic, and the completion of the Midwest wells, which are now being drilled, will show whether the Hogback is a promising area or not. The Midwest Refining Company, which got into the field of oil in the Navajo reservation, has worked out its leasing plan with the Navajos, has two producing wells.

The leases were sold as follows:  
Group One: 13 tracts, 21,520 acres, for \$187,600.  
Group Two: 12 tracts, 12,000 acres, for \$100,000.  
Group Three: 11 tracts, 11,000 acres, for \$90,000.  
Group Four: 10 tracts, 10,000 acres, for \$80,000.  
Group Five: 9 tracts, 9,000 acres, for \$70,000.  
Group Six: 8 tracts, 8,000 acres, for \$60,000.  
Group Seven: 7 tracts, 7,000 acres, for \$50,000.  
Group Eight: 6 tracts, 6,000 acres, for \$40,000.  
Group Nine: 5 tracts, 5,000 acres, for \$30,000.

**LOSS OF POWER**  
For all practical purposes of prophecy the stock exchange might as well be closed. There have been various explanations for this loss of prophetic power. One is that the outlook is so confusing, with so many of the familiar financial and weather signs pointing in opposite directions, that the financial community is either unable to make up its mind as to what to expect, or is equally divided between hopeful and pessimistic judgments. Another is that the "city" is stationary stock market prefigures a very stationary condition of trade—neither better nor worse, as a matter of fact, than what is in progress. Whichever theory is correct the business world has been feeling that it has lost its prophet.

Lacking the knowledge derived from an emphatic movement of the stock exchange, a good many people are asking what are the alternative possibilities of the financial and industrial future. It would be safe to say that at present two results are deemed as probable by men who follow the market—either a renewal of the trade boom of late spring, and early summer, or a further decline in the market, and a consequent depression. The attitude of the producer and consumer is against the first, the stability of the commercial market and the steady demand for immediate goods is against the second.

**STOCK NOT DEPLETED**

## BOND MARKET MORE ACTIVE

New Offerings Highest Since Week of June 15

Bankers Pleased Over Manner of Absorption

High-Grade Rail Issues Lead Investment Demand

(BY A. P. NIGHT WIRE)  
NEW YORK, Oct. 21.—There was a notable increase both in inquiries and in actual buying orders for investment bonds during the last week. Net changes in most instances, however, were not large, traders reporting that selling orders practically evened up the increased demand.

New bond offerings totaled \$99,044,000, the highest for any one week since that ending June 15, 1922, when the total was \$100,000,000. The \$200,000,000 United States Treasury financing was placed in addition, there was an offering of \$15,000,000 National Railroad preferred stock, the first issue of this sort offered the public in many months.

Time money was quoted at 5 to 5 1/4 per cent, with an increasing amount of money being loaned at the lower rate. The present rate is the lowest since June and compares with 5 1/2 to 5 3/4 per cent a month ago.

Bankers expressed great satisfaction with the manner in which new bonds were being absorbed.

The largest issues of the past week were \$47,000,000 Federal Land Bank bonds, \$21,000,000 Illinois soldiers' bonus and highway bonds, and \$10,000,000 Republic of Finland external bonds.

Announcement was made that the Swedish Match Company, through its American company, would soon offer an issue of \$10,000,000 debenture bonds, the proceeds to be used to extend the company's operations in Mexico, Canada and South America.

The selling of United States government bonds said to be by banking institutions, failed to attract the market for some issues last week, as large orders were in for their purchase.

Continued interest in the French bonds, and recessions were negligible. On the other hand, the Mexican debt, which had been pushed downward on renewal of reports that the Mexican debt agreement may suffer further delay.

**DEMAND FOR INVESTMENT ISSUES**  
ran largely to the high-grade railroad bonds, although the market for ordinary issues also found relatively good buying support.

Continued interest followed the trend of the stock market for the most part.

**HELD AS EMBELLIZER**  
(EXCLUSIVE DISPATCH)  
MILWAUKEE, Oct. 21.—Jay Williamson, charged with the murder of a police officer yesterday after a gun battle, was held in the city jail today. The charge was made by a Milwaukee police officer who was shot by Williamson in a gun battle in the city streets.

## Verde Central Starts Uprise as Experiment

(EXCLUSIVE DISPATCH)

JEROME (Ark.), Oct. 21.—Verde Central has started an uprising from its main 1000-level drift to the 800, to determine the continuity and claim of the chert. The Verde Central has been called the quartz ledge, paralleling the main contact workings at 300 feet distance, now also in solid ore, the quartz having disappeared, and there is speculation concerning possibility that the two drifts are in the same ore body. In both, the copper value is around 10 or 12 per cent.

Kaweah drill team will confer one of the three degrees to be given.

## UNDER TONE OF NEW OIL SANDS AT SIGNAL HILL

Uncertainty is Shown as to Next Year, However

Business Leaders Maintain Optimistic Opinion

Decline in Steel Trade is Becoming Slower

(BY A. P. NIGHT WIRE)  
NEW YORK, Oct. 21.—Irregularity with a fairly steady undertone in the chief speculative markets during the past week has reflected the business community's satisfaction with the existing volume of trade and its uncertainty with regard to the prospects for next year. Business leaders continue to take an optimistic view, pointing out that creditors have not long been subjected to strain, that stocks of goods have not been accumulated, and that liquidation of assets has been kept to a minimum.

On the other hand, those who were inclined to pessimism point out that iron and steel production has been declining steadily since the late spring and assert that the activity of that period will prove to have been a temporary phenomenon. They consider that four consecutive monthly declines in imports support this conclusion.

**EXPORTS GAIN**  
Imports during September amounted to only \$255,000,000, as compared with \$329,000,000 in January. With exports showing a normal pick-up, September's excess of exports was \$125,000,000, a sum which was sufficient to wipe out the deficit of the preceding months of the year.

Reports from the steel industry indicated that output is still receding, although the trade is somewhat encouraged by the fact that the rate of decline is becoming slower, rather than faster. New buying during October has been better than in September, but, on the other hand, deliveries still exceed bookings.

An unfavorable development of the week was a steady decline in grain prices which carried wheat off about 5 cents from the recent top prices. Reports of large foreign crops also had a depressing influence.

**COTTON STRONG**  
Cotton, however, while subject to considerable fluctuating closed the week strong, although the futures were above 29 cents.

Money remained relatively easy and the bond market displayed an improved tone. Offerings of new securities became more numerous and met with a satisfactory reception.

**FOREIGN EXCHANGE RATES**  
were reactionary, sterling losing ground despite the fact that the British government definitely repudiated any intention of repudiating the gold standard. The franc, however, was considered to be responsible for this decline. French francs were sold in the Ruhr negotiations.

**AN OPEN LETTER ADDRESSED TO A CERTAIN MAN OF AFFAIRS**  
There is in this City a Man surrounded by a Cohort of Mercenaries who Tolerantly Regard their Chief as a Necessary Tribulation: to be endured on account of the Family Budget and the Kamas Sutra.

Yet his Painful Cogitations tell him there must be Somewhere—Just the Man he Needs.

No matter what your Business Interests: I'm trained in Management and Team-work: I have been fashioned by Life's Hammer-Blows to be your Staunch Lieutenant. D. C. Box 631, Times Branch Office.

(EXCLUSIVE DISPATCH)

JEROME (Ark.), Oct. 21.—Verde Central has started an uprising from its main 1000-level drift to the 800, to determine the continuity and claim of the chert. The Verde Central has been called the quartz ledge, paralleling the main contact workings at 300 feet distance, now also in solid ore, the quartz having disappeared, and there is speculation concerning possibility that the two drifts are in the same ore body. In both, the copper value is around 10 or 12 per cent.

The company's small inclined shaft is inadequate for the work now being done and a meeting of directors will be held soon to determine the site of the permanent working shaft, which probably will be at least 1000 feet distant from the present shaft opening. There has also been speculation reaching the ore eventually by means of a long tunnel, mainly through United Verde ground.

## REDMEN OF TULARE VALLEY IN POW-WOW

(EXCLUSIVE DISPATCH)

TULARE, Oct. 21.—Local chiefs of the Kaweah Tribe of Redmen blazed the way yesterday to Ward Park for fifteen tribes who gathered there last night for a grand powwow of the valley warriors. Kaweah tribe will initiate a class of forty palatine. Other tribes were well represented at the powwow. Real Indians from Le More will participate in the celebration. Kaweah drill team will confer one of the three degrees to be given.

TRIO OF ARTISTS  
CHARM HEARERSFlute, Violin and Voice in  
KHJ ProgramExplorer in Thrilling Tale of  
AdventuresSacred Service Over Radio  
Inspirational

Three splendid artists presented the program in The Times studio last night, a program particularly well adapted to a Sunday evening recital. The artists included a flutist, a violinist, and a vocalist, and their presentation of well-selected numbers was charming in every respect.

Marguerite de Forest Anderson is a flutist of unusual ability. She has appeared at KHJ often before, in solo work and ensemble. Her numbers included "Meditation" from "The" by Massenet, the Berceuse from "Jocelyn" by Godard and "Pala Moon" by Lehar.

John P. Ogle, violinist, also has entertained over the microphone of KHJ on many occasions, particularly on the children's programs. His playing was characterized by a voice of warm, sympathetic tones, and sang many appealing numbers. When Song is Sweet, by Gertrude Samson, and "The Heart of Her" by Cadman, are examples of Mr. Ogle's excellent choice.

Elise Manion, violinist, was accompanied by Ivy Mae Travis, and furnished a pleasing feature of the program. Her playing was marked with excellence of tone and technique and charming ease. Capt. Edward A. Salisbury, a famous explorer, talked to radio-land during the evening. He related some of his experiences in a manner which gripped the interest of the listeners, and gave many a lad the wanderlust. He described his experiences among the San Blas Indians of South America. Rex Beach and Mary Roberts Rinehart, who were with Capt. Salisbury's party, have both based novels on the unique people which they found there.

The sacred service in the studio in the morning was conducted by the Rev. M. Howard Fagan, president of the Los Angeles Church Federation and pastor of the Episcopal Church organ. Then at 11 o'clock, the broadcast of the complete service of the church commenced. The sermon was delivered by Rev. Elmer E. Helms.

In the evening, before the studio program, a second organ recital was broadcast by remote control. Arthur Blakeley at the console of the First Methodist Episcopal Church organ. Then at 11 o'clock, the broadcast of the complete service of the church commenced. The sermon was delivered by Rev. Elmer E. Helms.

**TODAY'S PROGRAM**  
12:30 to 1:15 p.m. F. E. Scott of Southern Pacific will talk on "Industrial Future of Southern California." William Marshall, baritone, will sing.

2:30 to 3:15 p.m. Matinee musicals presenting Margaret Fern Melrose, soprano, Alice Lee Wiley, pianist-composer, and Georgia McCrone Field, reader.

3:45 to 7:30 p.m. Children's program, presenting Lewis Wilson Heller, reader, 10 years of age, Martha Virginia Shoemaker, singer, and Helen Schaefer, pianist, 12 years of age.

8 to 10 p.m. Program presenting Ruth Linrud, harpist and vocalist, Edmund Gatson, violinist, and E. A. Brinkman, who will give a reading.

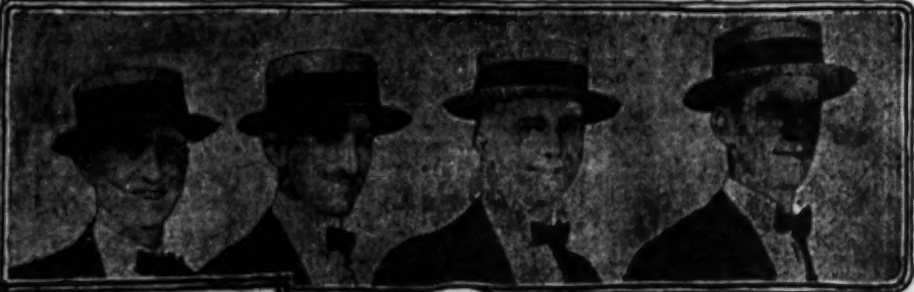

10 to 12 p.m. Broadcasting Art Hickman's Orchestra by line telephony, from the Hotel Normandie Hotel. The Original Singing Four, composed of C. H. Ramey, Arthur Hale, E. K. Smith and F. C. Reed, will also entertain.

PARIS PUBLISHER TO  
STUDY OUR METHODS

FRENCH NEWSPAPER OWNER  
WILL MAKE TOUR OF  
THIS COUNTRY

NEW YORK, Oct. 21. — Senator Paul Dupuy, owner of the Petit Parisien, accompanied by Mme. Dupuy, arrived here on the French liner Paris to tour the principal cities of the United States and study American journalism, especially newspaper advertising and methods of distribution. He will remain in this country four or five weeks.

In addition to the Petit Parisien, which has a circulation of 1,500,000 daily, Senator Dupuy owns twenty other publications. "I want to see how you Americans distribute papers," he told reporters. "I will also study your advertising methods and news gathering. Advertising is very interesting to me and I want more advertising in my papers. Your rates, however, are cheaper than in France."

"We have no Sunday editions like you have here and I want one for my paper. I have plenty of

DRENCH ACTOR AS  
HE COMES TO WORK

Mitchell Lewis, screen character actor, got a cheering reception when he began work in "Three Weeks" at the Goldwyn studios. He came on the set in costume the first day, rehearsed a scene with Dale Fuller and Nigel de Bruiler, then was led off the stage and drenched with a hose by the director, Alan Crossland.

"You've just been shoved into a Venetian canal," Crossland explained as Lewis, who hadn't been warned in advance, started after him.

Importance "Tell me, doctor," said the patient in the hospital, nervously. "Is there any chance of this operation proving fatal?"

"Really, young man," protested the doctor, haughtily, "considering that we are experimenting on you free of charge, I think your curiosity is hardly good form."

[Exchange.]

SHIP HERE  
READY FOR  
TRANSFER

Liner President Harrison  
Ends Last Voyage Under  
Shipping Board Colors

Thirty-two days from Buenos Aires, the "Harrison" liner President Harrison arrived here yesterday in completion of her farewell voyage under the banners of the United States Shipping Board and Swayne & Hoyt, Inc. She will be the first of seven sister ships purchased by Robert Dollar to sail in the only around-the-world passenger service under the American flag, being scheduled to leave the Pacific coast under Dollar colors in early December.

Her sister ship in service, the President Hayes, now in tropical waters, will also be turned over to the Dollar Line upon her return here. The two great passenger steamers are considered the cleanest ships on the Pacific, the hull, decks, rigging and lights of the President Harrison gleaming like that of a new yacht when she entered port yesterday.

She brought thirty-four passengers from Buenos Aires, Rio de Janeiro, Santos, Bahia, Recife, Porto Rico, and the Canal Zone, and is also discharging here 14,000 bags of coffee from Santos, 15,000 bunches of bananas from Colon and 450 tons of fertilizer from Rio de Janeiro.

Lionel Swayne, operating manager for Swayne & Hoyt, met the vessel at quarantine yesterday. Mr. Swayne announced the inauguration of an express freight service between this port and the east coast of South America will follow the Shipping Board's withdrawal of the two passenger liners.

MARRIAGE CUSTOMS IN  
SOUTH SEA ISLANDS

"The marriage arrangements of the laborers here are a great source of joy to me. All marriages have to be first sanctioned by the white man in charge, and it is here that the fun comes in. As the man is too shy or too proud to come and say he wants such and such a woman, generally one of the women (not the selected one) is deputed to me to make a sort of cough-giggle, and then out on the veranda I see a woman, dressed up in her best. I take no notice, she would run away. After about ten minutes she will come sidling in. Then I ask her what she wants. She tells me a long-winded yarn full of giggles and smiles. I don't catch more than one word in ten, but I use later for names. Then I tell her to send the boy to me. Ha, I know is waiting at the gate, but he takes quite ten minutes to get into the house. Then the blushing bride is pushed in by all the other women, and I perform the ceremony. This consists of writing on a piece of paper: 'I, Tanoape, do take Pousia for three years.' The couple affix their mark and off they go." [Lale of Illusion edited by Bohun Lynch.]

NOT GUILTY The magistrate looked sternly over the top of his gold-rimmed glasses and regarded the puny individual in the dock.

"You are charged," he remarked, reading the formal complaint, "with having wilfully and feloniously, and with malicious aforethought, appropriated to your own use a certain article, to wit, a one-wheel vehicle, commonly called a wheelbarrow, the said vehicle having been wrongfully and feloniously abstracted by you from the premises of one W. H. Hootcher, on June the eighteenth in the year of our Lord one thousand nine hundred and twenty-three, contrary to the statute in such cases made and provided, and against the peace and dignity of this great realm. What have you to say? Are you guilty or not guilty?"

The prisoner's face went quite yellow, and his knees almost gave way beneath him as he murmured: "Not guilty, your honor. All I did was to take a barrow." [Yorkshire Post.]

GIUSEPPI ASKS  
TO BE ADVISED

(Continued from First Page)  
fruit's he gotta juice. Bet say I can make 200 gallons. I tell you, Meester, I no need-a 200 gallons. I drink-a coffee, milk and-a theings like-a that. Tomorrow I go home, no feel like-a wine. I no drink, see?

O-o-o-o-o, no I no need-a 200 gallons! Giuseppe wailed as though in great pain, arms outstretched, "Meester, please—twenty-five—twenty-five gallons—he's a plenty for me'n my famelias."

THEN THE POLICEMAN  
"All right! I make-a forty gallons wine. Now, you please tell-a me. Pretty soon come in police-a man. He got-a least. He come-a to make-a house. He say, 'Giuseppe leav-a house.' I say that. He say, 'How much-a wine you got-a basement?' I say, 'Twenty gallons. O'men, you look!'

"Now! Wait! I wanna know see: Will the police-a man foot-a look'n see off he's only forty gallons? Um-m-m! I tell-a you. Mebbe he look 'n steak a long glass-a theins in the barrel and take heem out and—what you call it, read?—N' he say, 'A-hai! Giuseppe, he's got-a 10 per cent alcohol—mebbe fourteen per cent—eh? What you know? Will he do that, Meester?'

Giuseppe put the vital question. Giuseppe stumped, dramatic pose body arched outward, arms extended at the sides, head cocked, eyes rolled upward to his listener and an expression on his face as though he had just smelled of a dead fish.

ASK SOMEBODY  
"I don't know, Giuseppe, I guess the only thing to do is to ask somebody that knows—somebody," was the suggestion.

"A-a-a-h!" replied the boot-black as he raised a finger. "ask-a judge who get-a shoe shine here. He say, 'Giuseppe, ome knebe all right so long nobody knebe. But somebody knows—then look out!'

"Why don't you take a chance on it?" he was asked.

"A chance? Say, I leave in these-a countries twenty years. I gotta good name. I no take-a chance like-a that. Beets no good beensies, I tell you when a man put in jail because he make-a little wine to drink in heem own house. Eet's all-a dam foolishness. I never wanna break-a law, but watch-a gonna do? These-a hermes? Eet's a no dam good I think. Eh."

records and valuable instruments were tied in the boats in waterproof containers over whole trip had been barefooted. Our final landing place was Needles.

"We were sent to secure certain information for the government, and we got it. There's all I can say," concluded Mr. La Rue.

## WATER SELECTS FOOD

Patrons of Restaurant Not Permitted to Eat What They Please

Manhattan restaurants, asserts a New York man, are all too machine-like in their selection of food. He wants provided he pays for it. He may eat white bread when he should have rye, or meat when he should have beef. There is no one to come down hard with a flat refusal to serve him.

A severe looking man, a surprise to the waiters, who assume the right to order whatever they like, he was a stern-faced waiter who looks him squarely in the eye and answers:

"You'll take milk and eggs, sir, or nothing."

Rather breath taking the first time, but it is all in getting used to it, and the patrons of this determined eating place say you get so you don't resent it.

All one needs to stand outside and watch the people who patronize the place—the best-fed looking bunch in the city. The proprietor takes pride and infinite pains in keeping them that way. He holds that a hungry-looking customer is a poor advertisement and he positively will not have them that way.

When the meal hour is over he approaches the waiter with a number of notations.

"Now here, Joe," says he, "what about that fellow with the horn in his hand? He's been eating of late." The waiter explains elaborately. The proprietor won't do it. It's just as I suspected. He's got to have more milk. Put a lot of cream in it. He's been coming in here three weeks and hasn't gained a pound. More vegetables, too. Don't let him get away with any long about the fat fellow with the gray suit that eats at the end table—did I see him eating pigskin today?"

The waiter admits it. He has served him pie—two pieces.

"What! Two pieces?" The proprietor horrified. "Joe, Joe you know we can't permit a thing of that kind. Shut right down on him from now on. No more pie! Thank you, that can't be going on in my place." [New York Sun and Globe.]

EVENED IT UP  
A city couple on a drive through the country in the autumn pulled up besides a small orchard and helped themselves to apples in large quantities. Their consciences bothered them somewhat, however, they stopped in front of the farm-house which adjoined the orchard and called to the farmer who was in the front porch.

"We helped ourselves to your apples," said the woman. "Just thought we'd tell you the facts."

"Oh, that's all right," said the farmer. "I helped myself to your tools when you were in the orchard."

Timely Hint  
Stylate: I just saw an alarm clock going off in the hall!

Miss Weerie: Yes. Stylate: Who on earth in your family rises at five o'clock?

Miss Weerie: Papa does, if I haven't gone to bed then. [Boston Transcript.]

A Traffic Cop Frequently  
"Pa, who presents people at court?"

"In this country, my son, it is generally done by a policeman." [Boston Transcript.]

THOUSANDS SEE  
CLIFF BLOWN UP

Fifty-five Tons of High  
Explosives Used

Opens Palos Verdes Estate to  
Coast Highway

Huge Blast Heard and Felt  
for Miles

One hundred thousand cubic yards of earth, a mountain in the embryo, was shattered into dust yesterday afternoon to connect the Palos Verdes estate with the Coast Highway. The explosion, which took place in the Palos Verdes hills, two miles northeast of Point Vicente, was witnessed by thousands of spectators, who saw the gigantic piece of earth ripped apart from the hill, crumble into dust and settle into the sea.

The blast required to shatter the cliff to make way for the road builders was one of the largest ever used for a similar purpose. The work was in charge of trained powder experts and engineers employed by the Hercules Powder Company, engaged by the Palos Verdes estate to accomplish the task.

When the workmen prepared to fire the time which set off more than 100,000 pounds of black powder and 10,000 pounds of dynamite, the crowd numbered thousands. The explosion, which shattered the earth, was heard for miles and the earth trembled for a moment as it shaken by an earthquake.

The huge cliff crumbled and huge chunks of earth weighing thousands of pounds tumbled into the sea. In the air the dust from the shattered earth covered the sky for miles, finally settling down on the cars of the spectators.

TWO WOMEN  
ACCUSED IN  
SUDOW CASE

Neighbor Says He Saw  
Members of Dope Ring  
Strangle Woman

The report that Mrs. Fay Sudow was strangled to death by two women, members of a narcotic ring, is now under investigation by the District Attorney's office, following a conference between Dep. Dist. Atty. W. J. Clark and C. O. Meurk, formerly on a Superior Court jury panel, living at 108 North Grand avenue, it was learned yesterday.

Meurk is reported to have told Clark that he saw Mrs. Sudow murdered, and that he saw the women kill a Miss Allen, who formerly lived at the Grand-avenue address. Mrs. Sudow's nude body was found in a eucalyptus grove in Edendale in December, 1920. Many theories were evolved by the police and scores of persons questioned, but the murder was at last put down as an unsolved crime.

Meurk, who is a watchman and an inventor, declined to discuss the report yesterday, stating that his life was in danger. He said that a "gang" had attempted to kill him several times, and that he had been threatened.

Mr. Clark declared he would take no steps beyond an inquiry unless corroborative information is uncovered.

STORY WELL KNOWN IN  
ALL BRANCHES OF ART

Well known in the fields of literature, stage and opera, "Don Caesar de Bazan" was written many years ago by Adolphe D'Ennery, famous French playwright, and P. B. Dumanoir. Its continued success in these mediums prompted Paramount to choose it as the basis of a photoplay for Pola Negri, its transference to the screen under the title of "The Spanish Dancer" is the result, the picture now showing at Grauman's Rialto. It is a romantic story and the first costume drama in which Pola Negri has appeared in America.

The story deals with the love affairs of a gypsy girl whose beauty wins the attention of King Philip IV, of Spain and a disgraced nobleman. Every scene has a thrill of its own, with Antonio Moreno, Wallace Beery, Kathryn Williams, Adolphe Menjou, Garret Hughes and Robert Agnew distinguishing themselves in colorful roles.

CHAPLIN'S SERIOUS  
DRAMA IS SUCCESS

Introducing Charles Chaplin in a new role as director of serious drama, "A Woman of Paris" is scoring heavily in its first week at the Criterion Theater. Edna Purviance, in the leading role of Marie St. Clair, wins new laurels for herself. Adolphe Menjou, in the part of Pierre Revel, typical Parisian boulevardier, gives a performance that places him in the screen's hall of fame.

The atmospheric prologue, "Nocturne," conceived and supervised by Chaplin, presents a half-score of singing, dancing and instrumental artists.

ROMANCE, THRILLS  
IN RAY'S PICTURE

Today sees the opening of the fourth week of Charles Ray's production of "The Courtship of Miles Standish" at Grauman's Million Dollar Theater. Romance, thrilling adventure on land and sea, scenes of dramatic intensity and spectacular battles of the elements all go to make this photoplay an outstanding success.

Charles Ray heads the cast, supported by Edna Bennett, Joseph Dowling, William Sullivan, E. Alyn Warren, Norval McGrath, Tom Wilson and others.

## NATIVE OF SPAIN

Peppita Granados, who comes to the Hillstreet Theater this week, is a native of sunny Spain and she still speaks in her own language as it is spoken in America. She has with her Frances Drager, Spanish violinist; Marian Dale and Grace Murrell, dancers, and they all appear in a dancing act called "A Spanish Oriental Novelty."

Every day is  
Thermo Storage  
Day

**Thermo Storage**  
THE THERMO STORAGE WATER HEATER meets the demands of every day in the week. It large quantities of hot water for the family washing on Monday; or for the general house cleaning on Saturday; or just a cup of hot water at midnight. It is storing a large reserve of piping hot water, yet the consumption is making no difference that of ANY OTHER WATER HEATER. And its boiler is GUARANTEED FOR FIVE YEARS.

**Thermo Storage**  
Do not let your water heater become a liability. The Thermo Storage Water Heater is the most economical heater on the market.

# BIBLE STILL BEST SELLER OF ALL BOOKS WRITTEN

## Rev. M. Howard Fagan Tells Radio Audience Scripture Is Real Hope of Civilization

"The more we can get the Bible into the hearts and lives of the American people the cleaner will this nation become, and the higher in the scale of civilization," declared Rev. M. Howard Fagan, pastor of the Wilshire Boulevard Christian Church, in his sermon yesterday to the KHJ audience, given from The Times broadcasting station.

Preaching from the text "The grass withereth, the flower fadeeth, but the word of our God shall stand forever," Mr. Fagan spoke in part as follows:

"The Bible is the word of God. Not every word in it is the word of God, for that book contains the words of angels, demons, men and women. Hence, to read the Bible intelligently, one should first ascertain who speaks—whether angel, devil, man, Christ or God. Not everything that God has said or done is recorded in the Bible, but He has revealed enough that humanity may have life in abundance."

"The Bible is God's word in the sense that in a special way He caused it to be written. It is more than a mere-made book. For no prophesy ever came by the will of man but man speaks from God, being moved by the Holy Spirit. And because the Bible is the word of God it is indestructible, notwithstanding all the attacks that have been, and are being made against it."

"The Holy Bible is still the world's best seller. The first book ever printed was the Bible, nearly 450 years ago. It has been estimated that in the last century 150,000,000 copies of the Scriptures have been printed, sold and distributed. The book has been translated into about 250 different languages and dialects—yet the fact remains that thousands of people in the world have never had access to it while other thousands, in the churches, who have access to it, have neglected it."

"The central reason for our outstanding impression of the Bible is its matchless unity. In the Old Testament there are thirty-nine books, with thirty-two writers, extending over a period of more than 1000 years in its composition. In the New Testament there are twenty-seven books, with eight writers, extending over a period of fifty years. These men wrote on various subjects, in different ages and under various conditions—yet when their books are brought together in one volume they form a complete whole."

"Imagine forty composers, over a period of 2000 years, each writing independently a score of music. When completed these compositions are brought together and placed before a great orchestra. The master conductor gives the signal, the orchestra plays the score, and the harmony is perfect. We would be forced to the conclusion that back of that stupendous composition was a master mind. So it is with the Bible, the matchless unity of which compels us to the conclusion that God was controlling those who wrote."

"Another outstanding impression of this wonderful work is its adaptability to the needs of humanity, regardless of race, color, time or condition. Consider, too, the moral power of the book. When we compare the moral condition of those nations that have not the open Bible with the nations that have it, we are compelled to remark that this world needs open Bibles more than it needs great battleships."

### DECLARES DAY OF JUSTICE AT HAND

Speaking under the auspices of the International Bible Students' Association, James C. Walt preached at Trinity Auditorium yesterday on "The Great Crisis."

He said in part: "The old world has passed and is in travail and distress. It is the day of the Lord's visitation. It is because the duty of every Christian and every order-loving person is to stand the alarm, announcing the day of God's judgment and vengeance upon Christendom and pointing the people to the distant day of peace and salvation."

According to Bible chronology, the time, which began 603 B.C., was to endure 2579 years, and ended August 1, 1914. During that period Satan has been the god of this world or order of things. "The day of the Lord" marks the beginning of the exercise of kingly authority by the Lord Jesus, the King of Kings. According to the Bible, the great and final conflict between truth and error, between right and wrong, is foreshadowed in the complete downfall of Satan's empire and the establishment of the kingdom of peace and righteousness under Christ our Lord. "The day of the Lord" has come for truth to triumph. Which side are you on? What shall you do?"

### THINKS PRAYER IS PERFECTLY LOGICAL

Dr. Herbert Booth Smith, of Imperial Valley College, preached yesterday on the subject, "What Are the Great Objections to Prayer?" He spoke in part as follows:

"One reason given for opposition to prayer is that prayer is powerless if law rules the world. This would argue that God is kindly disposed but powerless to interfere with the machinery of a world which enforces the regularity of a clock. The objection holds to the destination of law. Nature follows the track laid down, the iron tracks of convention and custom and no force can turn it to the right or left. But every invention and contrivance that we use is 'civilized life' is man's victory over nature. The victory purchase almost, in the heart of God. If our God is a Person, He can do on a large scale with nature's forces what you and I can do on a limited scale. It is our conceit which imagines we know all the laws that are to be known. We are discovering new ones almost every day and they shame our ignorance. What most doubt,

we need is a larger conception of God. Prayer is useless if God is omnipotent, it is said. This objection would maintain that just because God knows all things, your confession or petition to Him is just as much wasted time. Jesus Himself uses the argument of God's omnipotence as a plea for prayer rather than an argument against it.

"Prayer is impertinent, if God is good, is another objection. Jesus did not refrain from prayer for this reason, but again He used it as a plea for prayer. Goodness cannot give to those who won't receive, and prayer puts us in a receptive mood. Because we are persons with wills like His, God must wait on our co-operation, and there comes in prayer."

### SEES NO SIN IN MAKING MONEY

Rev. Edgar Fay Daugherty, pastor of the First Christian Church, preached yesterday on "The Fool." He said in part: "The rich man, any man is entitled, in the Christian view of life, to make all the money that he can; where men of the world put company with the Christian maker of wealth is in the way they make it and the use to which they put it. There would be no social protest today against the holders and users of wealth, if it were legitimate money and wisely used. The devil's chief henchmen in these times of democracy's bewilderment are the provision and fuel manipulators, profiteering selfishly out of the necessities of the people. In a government of, by and for the people, the welfare of all must be put above the profit of the few, and it will be in time; if not by the conscience of individuals, then by the mandate of the government, as it ought to be for governments exist to secure the welfare of all the people, and they fail and fall when manipulated by the profligate minority. Every selfish scheme after profits from the people's straits should be branded and punished by the government without either compunction or mercy. The only folk who cry out indiscriminately against riches are the indolent and stupid folk who have covetous hearts themselves. In wealth per se there is no evil, but tremendous good, and the supremely foolish in this and every generation are those who fail to see the power for good in wealth, wrecking their life in its unjust acquisition and selfish use."

"In order to exercise its cleansing power in the lives of men, the Bible must be read, for it is not a charm book whose mere presence in the home brings blessings upon the family. Neither is it a sealed book, but one which may be understood if intelligence and devotion are applied to its wondrous sayings. If the words of the New Testament shall be given that authority in all matters of faith and practice there will be no danger of our being led astray by the many modern cults and isms that so frequently drive men into spiritual suicide. My plea, then, is for an open Bible in every American home, in every American school room and in every American pulpit. For the Bible is the best book in all the world—there is no other book comparable to it."

"Another outstanding impression of this wonderful work is its adaptability to the needs of humanity, regardless of race, color, time or condition. Consider, too, the moral power of the book. When we compare the moral condition of those nations that have not the open Bible with the nations that have it, we are compelled to remark that this world needs open Bibles more than it needs great battleships."

"Imagine forty composers, over a period of 2000 years, each writing independently a score of music. When completed these compositions are brought together and placed before a great orchestra. The master conductor gives the signal, the orchestra plays the score, and the harmony is perfect. We would be forced to the conclusion that back of that stupendous composition was a master mind. So it is with the Bible, the matchless unity of which compels us to the conclusion that God was controlling those who wrote."

"Another outstanding impression of this wonderful work is its adaptability to the needs of humanity, regardless of race, color, time or condition. Consider, too, the moral power of the book. When we compare the moral condition of those nations that have not the open Bible with the nations that have it, we are compelled to remark that this world needs open Bibles more than it needs great battleships."

### EXPLAINS WHY HE BELIEVES IN GOD

Rev. H. C. Culbertson, pastor of Plymouth Congregational Church, preached yesterday on "Why I Believe in God." An excerpt from the sermon follows: "I believe in God because I believe that the law of all nature and life is a law of development. Nature climbed a great way, according to the teaching of biology and history, but the highest development is a development of character which can come only to those who accept by faith the kingdom of a God described by Jesus. There may be good men who do not believe in God, but there is a sweetness and beauty and nobility of soul which appears to come only to those who have taken Jesus' idea of God and lived in communion with Him. Many a young man, passing through a period of sinners' doubt and questioning, has been helped to believe because he saw that his mother's God produced in her a type of spiritual beauty which never comes from any other source. Since the law of life is development, and since the faith in the God of Jesus produces a higher life than can be attained without it, therefore we believe that God the Father is real. This faith answers to the noblest longings and outpourings of the human soul."

"The old world has passed and is in travail and distress. It is the day of the Lord's visitation. It is because the duty of every Christian and every order-loving person is to stand the alarm, announcing the day of God's judgment and vengeance upon Christendom and pointing the people to the distant day of peace and salvation."

According to Bible chronology, the time, which began 603 B.C., was to endure 2579 years, and ended August 1, 1914. During that period Satan has been the god of this world or order of things. "The day of the Lord" marks the beginning of the exercise of kingly authority by the Lord Jesus, the King of Kings. According to the Bible, the great and final conflict between truth and error, between right and wrong, is foreshadowed in the complete downfall of Satan's empire and the establishment of the kingdom of peace and righteousness under Christ our Lord. "The day of the Lord" has come for truth to triumph. Which side are you on? What shall you do?"

### THINKS PRAYER IS PERFECTLY LOGICAL

Dr. Herbert Booth Smith, of Imperial Valley College, preached yesterday on the subject, "What Are the Great Objections to Prayer?" He spoke in part as follows:

"One reason given for opposition to prayer is that prayer is powerless if law rules the world. This would argue that God is kindly disposed but powerless to interfere with the machinery of a world which enforces the regularity of a clock. The objection holds to the destination of law. Nature follows the track laid down, the iron tracks of convention and custom and no force can turn it to the right or left. ## "Oldest Dry Goods Store in Los Angeles"

### In Forty-five Years Conditions Change

From one small room, 18x50 feet, to an entire spacious building.  
From two salespeople to hundreds.  
From personally kept accounts—the original book of which appears in a display window—to a corps of skilled accountants.  
From fifty charge customers to thousands.  
From daily receipts in business of \$7.70 (first day) to thousands.  
From a monthly purchase of \$1000 to hundreds of thousands.

### But These Have Never Changed

The sole ownership and management of what developed from Mr. Coulter's original venture, in 1878, into the Coulter Dry Goods Company, incorporated in 1892, is and always has been vested in the immediate Coulter family.

Those principles upon which the store was founded—of honesty, reliability, one price to all—have been rigidly adhered to throughout the store's nearly half a century of existence.

## Snow White, Part-Wool Blankets, at Pair—\$6.65

Determined to do the job in the winter, 1922, hundreds of alumni of Northwestern University, residing in California, will open their campaign today to raise their share of an endowment fund of \$5,000,000 for their alma mater. According to Harry O. Hill, prominent Los Angeles Y.M.C.A. man and State chairman for the drive, the California alumni plan to raise \$125,000. The fund will be used to endow a new construction of four professional schools on the new campus recently purchased almost in the heart of Chicago, and for the improvement of the campus at Evanston. Among members of the local campaign committee are Mrs. Edna Betts Trask, Mrs. C. E. Noerenberg and W. T. B. Campbell. The money is expected to be raised by November 24, the University's "homecoming day."

## 45th ANNIVERSARY

Main Store, Seventh Street Branch Store

## From October 27 to 29

## Autumn Dress Attraction

\$25.00 \$49.50

WOMEN in search of smart for almost any occasion, find in these, the ultimate in value.

**TOAD ELECTS BOB SHERIFF**

Victory Made Easy When Vinegar Bill's Pet Trails Mexican Bandits to Jail

BY J. E. MITCHELL

"In many ways this here toad of Vinegar Bill's, you understand, possessed almost superhuman qualities," Christmas Tree Charley Whipple said last night in recounting some of his experiences in the

MUCHO DINERO, Y PRONTO!

early days when Arizona was still a Territory, when Vinegar Bill was still a commodity and the bootlegger had not been elevated to the class of tradespeople alongside the grocer and the butcher.

"If it hadn't been for the toad in' as a shift boss over at the King, Bob Anderson never would have been elected Sheriff of the county and Vinegar Bill probably never would have been heard of outside the Territory," Charley continued.

"The first we know of this here hyacinthine crime I am-a-tell you about was when the stage comes along and he is sighted."

"I've often thought how humiliating it must have been to that old man to know that his pants were all cut off and the stage coming along any minute and him not being able to do nothing about it."

"After the old fellow has got all dressed up with a new pair

"Well, we have another drink and

"Just then Bob Anderson was

"But they ain't no trail," the

"Just then Bob Anderson was

"I reckon the toad's name

THE TOAD TAKES THE TRAIL.

of pants and a couple of drinks he takes the trail and then the real play begins.

"Bob just customs his rope around

"We can't see no sign around

"That don't make no never mind

"The count is four

"He goes through mesquite

"He was there. Once or twice

"where the trail is pretty rocky

"He goes right away and goes on

"with us a whoopin' and a hollerin'

"and don't our best to keep up

"BILLS MEANS NOTHING

"That toad must have been part

"bloodhound. I expect every min

"ute that he'll begin to say. The

"way we go up them hillsides

"and down them arroyos makes our

"fox hunt that ever was look like

"a funeral procession."

"And it turns out to be a funeral

"procession, too, if you know what

"I mean, for we follow them two

"hills right back to our own camp

"Right down the main drag the

"toad goes, turns up a dry wash and

"hairs right into the Sheriff's back

"door."

"These two copious turns out to

"be corners of the Sheriff's wife

"and the Sheriff knows every alone

"that they do it."

"That's how come Bob was

"elected Sheriff, our previous

"Sheriff having decided not to come

"back from the north end of the

"county."

"The court awarded the decree.

# DAUGHERTY TO RELEASE FUND

Sums Held Pending Success of Project Involved

Dep. Atty-Gen. Linney Makes New Ruling

Money Cannot be Seized Except in Fraud

That the Commissioner of Corporations, Edwin M. Daugherty, has no right to withhold funds deposited in banks by corporations, in fulfillment of permit requirements, except on grounds of fraud, was the opinion of Dep. Atty-Gen. K. H. Linney, stated in a letter to Commissioner Daugherty.

The opinion was introduced in evidence in a suit brought by the Black Diamond Oil Syndicate against Daugherty in Judge McKim's court. A previous court order had released \$15,000 of the \$50,000 involved in the suit, and an order for the release of the remainder was due yesterday.

**FUNDS WITHHELD**

The funds were being withheld by Daugherty on the grounds that the syndicate's project for oil development in a section of the San Joaquin district was likely to prove unsuccessful. The funds had been deposited by the syndicate with the Hellman Commercial Trust and Savings Bank, in accordance with the requirements of the permit. Linney's letter read, in part:

"You state, however, that the

# HUSBAND SUES SUING WIFE

Man Who Wants \$50,000 of Plumber for Ascertained Alienation, Files Cross Bill to Mate's Charges

The \$50,000 alienation-of-affections suit against W. N. Katz, West-avenue plumber, for the ascertained theft of the love of Mrs. Olga W. Dingseld, has been given another angle in the superior court Saturday. Charles C. Dingseld, the husband, is now on living at the home of her mother. Dingseld could not get along with his wife's relatives and the couple finally came to an agreement that his wife should be a party to a clandestine love affair with Katz, her employer, at Wheeler Hot Springs.

The cross-complaint followed Mrs. Dingseld's action for divorce, in which she accused her husband of extreme cruelty. She stated she failed to provide a home for her after their marriage in Springfield, O., in 1919, and in property upon which the company merely because, in his opinion, the project is likely to prove unsuccessful. Such action may only be taken when fraud is indicated.

**ONLY IN FRAUD CASES**

"According to Section Four of the Corporate Securities Act, however, it is the duty of the commissioner to issue the permit if he finds that the proposed plan of business is not unfair, unjust, or inequitable, that it intends to benefit the public, and that the securities to be issued, and the methods of issuing them, are not fraudulent."

Having issued the permit, the

**INNOCENT AID GIVEN DRY SQUAD**

Boy Hammers Malleable Glass Bottle; Raiders Make Arrest

Somebody who had invented malleable glass, apparently without knowing it, aided the police yesterday in their war on bootleggers. When a squad from Lincoln Heights station under Sgt. Ross invaded the home of Antonio Cuchile, 4120 East 12th, they say, they found Cuchile's son hammering away at a five-gallon glass bottle without effect on it.

The officers say they confiscated five gallons of whiskey, four barrels of wine, and arrested Cuchile for ascertained violation of the Prohibition laws.

The same squad visited N. Chipco at 480 South Daly street and found, they say, two gallons of whiskey and four barrels of wine. Chipco was arrested.

A quiet party in an apartment at 418 South Lake street was interrupted by Sgt. Spinner and Ryan and Officers Kritzer and Stewart of the Wilshire station late Saturday night. Miss N. B. Nichols, Miss G. D. Raymond, K. C. Cheney and A. M. Nichols, all of whom were arrested and booked as possessors of liquor, after the police found, they say, thirteen bottles of whiskey and wine in the apartment.

Sgt. Johnson led a squad of lines in a raid at 1511 1/2 East 3rd street, where James Smith and Sam Johnson, negroes, were arrested on charges of violation of the Prohibition laws. Smith, brother, and two negro women and thirteen other negro men were arrested on vagrancy charges. Smith and Johnson, according to the sergeant, offered the police money to drop the charges.

# NEW GUINEA CANNIBALS ARE FILMED

Explorer Returns From Wilds With Photographic Record of Adventure

Due to the efforts of W. F. Alder, Los Angeles author and explorer, this city now has one of the most complete pictorial and written records in the country of a race that in the next few years will vanish from the earth, according to scientists.

They are the Kik Kik cannibals and live on the islands of New Guinea in the Dutch East Indies. Alder has recently returned from New Guinea, where he spent eight months in the jungles preparing his history and in making a photographic record of the cannibals.

The cannibals are cast in the film which is to have its world premiere at Club's Broadway Theatre later Saturday.

Since his return Mr. Alder has told radio fans of his adventures with the headhunters in talks over KJL. The Times broadcast station. His pictorial record is the final one of its kind that can be made, for shortly after he had finished his work the Dutch government enforced orders prohibiting many of the native cannibalistic practices. Included in the prohibitions were the dances and the tribal dance with human sacrifices and the solo dancing of undressed men and women. In both the tribal and solo dances the natives whipped themselves up to the furies which preceded their head-hunting orgies.

**ACTION DUE ON SAFETY ORDINANCE**

Council Expected to Enact Rules for Safety of Children Soon

The City Council is expected to enact early this week an emergency ordinance authorizing the painting of wide, white lines on the pavements at street crossings used by school children. These lines will be twenty-five feet apart, and will be marked, "Stop-School." Between the hours of 7:30 and 4:30 p. m., each school day, motorists will be required to come to a complete stop at these lines so as to make certain that the machines will cross carefully these twenty-five-foot paths at a low rate of speed.

The ordinance will take effect at once after it has been enacted by the Council following the introduction of the bill by Councilman Mayor. It was ordered prepared by the Council following the introduction of the bill by Councilman Mayor. It was ordered prepared by the Council following the introduction of the bill by Councilman Mayor.

# FASTEST CRUISERS COMING

Four of Speediest Navy Fighters to be Stationed With Fleet in Local Harbor

Addition of a powerful new scouting force to the United States fleet, ten new light cruisers under command of Rear-Admiral William B. MacDougal will be announced at Los Angeles Harbor today with the return of the flagship California from San Francisco. Four of these fast fighters, the Richmond, Omaha, Milwaukee and Cincinnati, will be stationed here this base.

The release of Navy Department orders placing Admiral MacDougal in command of the new force announces the completion of department plans for the assignment and service of the new cruisers, which by their remarkable speed, range and effectiveness form a fleet in themselves. Nine of them are now in commission, and all of these have developed a speed in excess of thirty-five knots with a total propelling energy of approximately 100,000 horsepower, making them the fastest, lightest powered, craft of any type afloat.

**MACDOUGAL NAVAL EXPERT**

Admiral MacDougal, the Navy's first chief of the new "flying squadron," is considered one of the world's first authorities on destroyer warfare. He is at present superintendent of the Naval Observatory at Washington, D. C. He has seen more than twenty-one years of active service, and holds a letter of commendation from the War Department as well as a Navy cross as aide to commander of the scouting fleet train.

His staff as commander of the light cruiser division was announced yesterday by the Navy Department as follows:

Division 1: Richmond (flagship), Omaha, Milwaukee and Cincinnati, at Los Angeles Harbor.

Division 2: Concord (flagship), Fresno, and Memphis, at Hampton Roads.

Division 3: Raleigh (flagship), Raleigh, and Detroit, at Hampton Roads.

The Omaha, first of the 7500-ton speedsters in commission, will return to this port this week from Puget Sound. Of the sister ships of her division, the Milwaukee and Cincinnati are now preparing for long "shake-down" cruises through the South Sea, while the division flagship Richmond is enroute to South America, on her shake-down cruise.

**CRUISER STATIONS**

The light cruiser divisions will be stationed as follows:

Division 1: Richmond (flagship), Omaha, Milwaukee and Cincinnati, at Los Angeles Harbor.

Division 2: Concord (flagship), Fresno, and Memphis, at Hampton Roads.

Division 3: Raleigh (flagship), Raleigh, and Detroit, at Hampton Roads.

The Omaha, first of the 7500-ton speedsters in commission, will return to this port this week from Puget Sound. Of the sister ships of her division, the Milwaukee and Cincinnati are now preparing for long "shake-down" cruises through the South Sea, while the division flagship Richmond is enroute to South America, on her shake-down cruise.

**WESTERN RANGERS TO SELL PINE CONES**

AIM IS FOR MAINTENANCE OF ORGANIZATION COUNCILS

A shipment of pine cones from the virgin forest region of California, sent by order of Uncle Sam's chief Forest Ranger, has arrived at the headquarters of the Western Rangers, an organization of boys and girls devoted to nature study, with headquarters at 1311 Waterloo street. Plans are underway for a general sale of the cones, the first enterprise of its kind ever held, Friday and Saturday of this week. The proceeds of the sale will be used for the maintenance of the organization of the Western Rangers.

The Western Rangers were formerly known as the Woodcrafters. In civic movements, the organization of forests and natural monuments and parks, the Rangers co-operate with the Boy and Girl Scouts. Camps in the nearby mountains have been established, and each week-end the boys and girls set out on nature hikes. Mayor Cryer, Mrs. Susan M. Dorsey, superintendent of schools, and Harry J. Jamieson, assistant city clerk, have endorsed the organization, which has as its chief in the Los Angeles district, Harry J. Jamieson, assistant city clerk, and Stewart Tinsman.

The street sale of cones has been organized, and mothers of the children will act as inspectors at each of the principal corners of the downtown section of the city. It is planned to cover the outlying sections as well. The boys and girls will wear official badges, identifying them as Western Rangers.

**LAEMMLE FINDS DIRECTOR**

Film Magnate, Home After Long Tour, Says He May Get Foreigner for Universal

Carl Laemmle, film magnate, arrived in Los Angeles yesterday afternoon, terminating a world tour of five months. The president of the Universal Pictures Corporation passed over three months in Europe investigating financial conditions of theater owners and producers of the principal countries.

He will be "on the job" this morning at Universal City, producing center of the company.

Only one important development out of his European trip was mentioned yesterday by Mr. Laemmle. He stated that he had started negotiations which may be completed soon for the acquisition of one of the directors whom he watched at work in a foreign film center. This man, he stated, is "the biggest director" in Europe today.

Conditions of motion-picture making and exhibiting in Europe are not improved, said Mr. Laemmle.

Julius Bernheim, general manager at Universal City, and H. A. Boushey, general production manager, were among the large party of studio executives which met the train. Samuel Van Ronkel, producer of independent pictures, and Harry Zehner, Mr. Laemmle's secretary, accompanied the latter to Los Angeles from New York.

**The Precise Reporter**

Ewing Herbert tried to stop a dog fight in the park Wednesday and one of the dog bit a piece off of his new pants and his old leg.

# ACTIVITIES IN SOUTHLAND'S COLLEGES AND HIGH SCHOOLS

Many high schools have entered their school papers in the second semiannual journalistic contest of the High School Press Association being conducted. The competition is intended to encourage higher ideals of accuracy and truth among the high school newspapers.

The schools of Southern California are divided in three groups: League A, schools with an enrollment of 700 or less; league B, with a non-enrollment between 700 and 1000; and league C, with an enrollment of more than 1000. The school in each league receiving the highest number of points will be presented with a cut to be used in a mast-head of the winning paper. Points will be given on reporting, make-up, editorials and feature news.

**BATTERED SHIP MAKES LOCAL PORT**

Steamer Claremont Limp Into Harbor Under Jury Rudder Rigged in Gale

With her pumps going full force and under a jury rudder which was rigged in a sixty-mile gale, the steamer Claremont, Capt. H. L. Olson, made port at Los Angeles Harbor yesterday. The Claremont is the vessel which was disabled in a storm off the mouth of the Columbia River the 16th inst. and narrowly missed going on the rocks. The sea was so heavy that several vessels, attempting to go to her assistance, were driven back.

The storm wrecked the Claremont and washed away her deckload, 500,000 feet of lumber, in addition to smashing her rudder. She was drifting rapidly, but heroic members of the crew went overboard with ropes and tackle, and constructed a makeshift rudder which enabled the boat to make port.

The Claremont was accompanied down the coast by the steamer Olympic, which kept near to render assistance in case it was needed. She was bound from Gray's Harbor to Los Angeles.

Despite the heavy seas the Claremont was forced to face and the grave risks taken by her crew in building the jury rudder, there were no casualties except minor injuries.

**HAIL PLANE AS PIONEER OF NEW ERA**

Aviation Followers Are Impressed by Success of Unique Airship

By a "Times" Staff Correspondent SANTA MONICA, Oct. 21.—Aviation followers are agog today over the successful flight of a semi-cantilever monoplane, which they assert will create a new era in flying. The machine was built at the Clover Aviation Field, and is said to be the first machine of its kind in the United States.

Following a demonstration of its efficiency several days ago, Maj. William Abbott Robinson, United States Army flyer, declared he would attempt to have the government build the machine for Army use. The plane is the property of Calvin Silliman, 148 South Hope street, Los Angeles. The pilot in yesterday's flights was K. W. Montee, flyer and creator of the plane.

According to aviation experts at the Clover Field, the plane carries forty-eight gallons of gas, two gas tanks having a capacity of eighteen gallons each, and one in the rear of the plane a capacity of thirty gallons. It has a wing spread of forty-two feet, is twenty-six feet long and is eight feet high. Its total weight is 1250 pounds and it will carry five passengers.

A traveling speed of eighty-four miles an hour can be reached easily.

The plane is propelled by a Curtiss motor of the O.K.-5 type. Yesterday the machine was taken on several flights about the Santa Monica district, and it is declared that it demonstrated a lower speed at landings and a far greater speed in starting from the ground.

# GRAND MEETING

Franklin High School published a football year book that is of interest to girl students, and is a valuable addition to the school library. The book is a record of the football team and is a valuable addition to the school library.

The book is a record of the football team and is a valuable addition to the school library.

**POLYTECHNIC HIGH SCHOOL**

The newly formed Polytechnic High School will have a special place in the bleachers for the football fans, who will be interested in the game. The school is a new addition to the city and is a valuable addition to the school library.

The school is a new addition to the city and is a valuable addition to the school library.

**THE JEFFERSON ROAD**

A new example of the school, when they were in the bleachers for the football fans, who will be interested in the game. The school is a new addition to the city and is a valuable addition to the school library.
